EXECUTIVE SUMMARY

Operating Highlights

Ridership growth continued to slightly exceed budget projections. Rail ridership growth resulted in passenger revenues exceeding budget by 2%, or \$0.6 million for the month. Bus ridership was almost the same as the budget with slight growth over last year's actual. In the coming months, ridership and revenue will be very closely analyzed to determine how much new revenue is resulting from the fare increase versus background growth.

At the end of November, total revenue (passenger plus non-passenger) is ontarget, and expenses show a favorable variance of 1 percent. The net bottom line subsidy is favorable by 3 percent, or \$6.3 million. Unfortunately, many of the accounts which are currently showing favorable variances may be experiencing timing differences which may reverse in future months.

Capital Highlights

In November, Notices-to-Proceed were issued for the 225 replacement buses the Board approved in late September. By the end of November, a total of 286 rehabilitated 2000/3000 series Rail Cars had been accepted with an additional 42 cars in the rehab pipeline. Short term debt levels held constant in November.

OPERATING FINANCES

Revenues had mixed results in November 2007. Passenger revenue came in \$0.1 million better than budget. But non-passenger revenue was about \$0.6 million under budget.

- Rail passenger revenue in November was 2 percent better than budget, or \$0.6 million. Through the end of November, total Rail passenger revenue was \$180.2 million, \$3.9 million favorable. This is a complete reversal from last year's unfavorable trends in passenger revenue.
- In November, Bus passenger revenue was below budget by 5 percent, or \$0.4 million. Bus revenue was below budget for most of the fiscal year except October. Through the end of November, total Bus passenger revenue was -\$1.5 million or 3 percent below budget.
- The combined non-passenger revenue accounts were 6 percent below budget for the month, or \$0.6 million. The only positive increases were Fiber Optic and Rent. Parking revenue decreased by 4 percent, or \$0.1 million. Interest, contract bus and other revenues had minor dollar variances during November. Advertising revenue was \$0.3 million less than budget.

Expenses are 1 percent under budget, \$5.6 million, for FY2008 year-to-date.

During the month of November, vacancy savings were offset by greater than projected overtime costs while fringes were on target. Overages in the diesel, CNG, electricity, and claims/liability accounts were partially offset for the month by several service accounts that experienced allotment timing differences that are expected to balance out in later months.

RIDERSHIP TRENDS

Metrorail ridership for the month continued the trend this fiscal year of exceeding projections. In November, Rail ridership increased 4 percent to 16.8 million trips, 0.6 million trips above the budgeted 16.2 million trips. Average weekday Rail ridership was 710,115, 5 percent above last November and 3 percent above budget. Weekend increases averaged 8 and 11 percent over last year on Saturday and Sunday, respectively.

Metrobus ridership for the month was almost the same as the budget. Total Bus ridership was 10.8 million trips. However, Bus ridership grew 1 percent when compared to ridership the same period of last fiscal year. Average weekday Bus ridership was 455,000. Saturday ridership dropped 2 percent, and was 4 percent below the budget. Sunday ridership grew 5 percent, and was 4 percent above the budget.

MetroAccess average weekday ridership was 4,803 trips, 15 percent above the ridership of last year and 9 percent higher than budget. Through the end of November, total MetroAccess ridership totaled almost 602,000 trips, an increase of 17 percent from the same period of last year.

CAPITAL FINANCES

Revenues

Revenues received to date for the FY 2008 capital budget total \$213 million. Three of the four federal grants for FY 2008 have been approved and are available for draw-down. State and Local contributions, received quarterly, include the first two quarters of FY 2008.

Costs

The current capital budget for FY 2008 is \$687 million, of which 31 percent or \$213 million has been expended. The appendix includes budget and spending data for each capital project.

Capital Revenues			F۱	/2008

Capital Project Highlights

Bus Procurement

There are approximately 1,500 buses in WMATA's current base bus fleet. Procurement strategies are designed to achieve and maintain an average fleet age of 7-1/2 years. Base fleet replacement buses are funded through the Infrastructure Renewal Program (IRP).

On September 27, 2007, the Board approved awarding two new contracts to procure 225 replacement buses for a total of \$140.6M. Notice to Proceed on those awards was issued in November for the following deliveries:

- 22 sixty-foot NABI CNG articulated buses by May 31, 2008
- 103 forty-two-foot New Flyer hybrid/electric buses during FY 2008
- 58 forty-two-foot New Flyer hybrid/electric buses during FY 2009
- 22 sixty-two-foot New Flyer hybrid/electric articulated buses during FY2009
- 20 thirty-seven-foot New Flyer hybrid/electric buses during FY 2009

Security Program

As a result of the terrorist attacks on September 11, 2001, an extensive review of WMATA's safety and security program was conducted. This review resulted in the development of a series of initiatives to enhance the safety and security of Metrorail and Metrobus. Currently funded projects include:

- Provide radio signal connection between Arlington's above ground and below ground portions of the Metrorail system;
- Create a redundant antenna system for the District of Columbia;
- Install cameras on up to 100 buses; and
- Design and procurement activities to enhance the Alternate Operations Control Center capabilities.

The program budget is currently \$37.5 million.

2000-3000 series Rail Car Rehabilitation

This project will enhance rail car reliability with the mid-life overhaul of 364 2000 and 3000-series rail cars originally manufactured by Breda. Alstom is the contractor. Work performed focuses on areas of propulsion, brake, door controls, signs, interior, truck, heating, ventilation and air conditioning, lighting, communications, high voltage and control cables systems/equipment. The project is funded by the IRP. As of November 30, 2007, 286 cars (143 married pairs) have been accepted and 42 cars are currently in the manufacturing/testing/conditional acceptance portion of the program.

OUTSTANDING DEBT

WMATA's outstanding debt as of November 30, 2007 is \$544.7 million, as shown in the table below.

The Series 1993 and 2003 bonds were issued to fund the Rail construction program. These bonds are being repaid by semi-annual debt service payments from the jurisdictions. This \$27.5 million annual debt service expense is reported as part of the operating budget and is always included on subsidy allocation tables.

The Series 2003B bonds were issued to increase funding for capital rehabilitation and maintenance of elevators and escalators. The debt service expense is being paid from passenger fare revenue. The FY05 fare increase set aside \$6 million per year in revenue to fund the debt service expense. These amounts are reported as part of the capital budget.

Commercial Paper is issued as short-term borrowing to support the Metro Matters budget and is scheduled to expire at the end of calendar year 2010. This program has a \$330 million ceiling on the amount of borrowing allowed. Additionally, there is internal borrowing to meet the cash flow needs of capital expenses.

Debt Type		November 30, 2007						
(dollars in millions)	Outstanding Principal	Annual Debt Service	Maturity Date

EXECUTIVE SUMMARY

Operating Highlights

Ridership growth trends reversed in December. There were two days of measurable snow, which is unusual in December. Additionally, the federal government was given an unexpected holiday the day before Christmas. Average weekday Metrorail ridership decreased 1 percent and Metrobus average weekday ridership declined 3 percent when compared to last year. In spite of the ridership loss in December, year-to-date Metrorail total ridership maintained a 4 percent growth rate. Through the end of December, total Metrobus ridership was about the same as last year. In total, passenger revenues were \$1.7 million under budget in December. Non-passenger revenue was also under budget for the month which produced a total revenue shortfall of \$2 million for the month. Although revenue was unfavorable, expenses were favorable by \$1.3 million, or 1%, and the year to date subsidy remains favorable by \$5.6 million, or 2%.

Capital Highlights

Major station enhancements have been started at Southern Avenue, Branch Avenue and Silver Spring stations with minor enhancements beginning at Gallery Place and Metro Center stations. Additionally, leak mitigation at various stations and tunnels continues throughout the Metro system with the plan to repair 2,200 leaks and 500 linear feet of concrete joints as part of the overall capital program.

OPERATING FINANCES

Revenues were below budget for the month of December. Passenger revenue was \$1.7 million less than budget. Non-passenger revenue was about \$0.3 million under budget.

- Rail passenger revenue in December was about \$1 million below budget.
 This is the first revenue shortfall for Rail in this fiscal year. However, through the end of December, total Rail passenger revenue was \$210.1 million, \$2.9 million favorable, or 1 percent above last year.
- In December, Bus passenger revenue was below budget by 8 percent, or \$0.7 million. Bus revenue was below budget for most of the fiscal year except October. Through the end of December, total Bus passenger revenue was \$2.2 million or 4 percent below budget.
- The combined non-passenger revenue accounts were 3 percent below budget for the month, or \$0.3 million. Parking revenue was \$0.3 million above budget due to the \$0.358 million payment received from Prince George's County for the parking spaces owned by WMATA in the County's parking garage. Other revenue was \$0.1 million higher than budget. Advertising revenue had a shortfall of \$0.3 million. Through the end of December, advertising revenue was about \$1.5 million below budget or 8 percent less than budget.

Expenses are 1.0 percent under budget, \$6.9 million, for FY2008 year-to-date.

During the month of December, vacancy savings offset greater than projected overtime costs. Due to two retroactive pension plan adjustments and higher than expected Cigna claims costs, the Fringe accounts exceeded budget by \$0.7 million, or 4%. Overages continued in the CNG and electricity accounts and favorable timing issues currently experienced in the service accounts are expected to balance out by the end of the fiscal year.

RIDERSHIP TRENDS

Metrorail average weekday ridership and average Sunday ridership had a negative 1 percent growth rate. Average Saturday ridership was 1 percent above budget. However, through the end of December, total rail ridership had a 4 percent growth rate, and is almost \$3 million better than budget.

Metrobus ridership is on budget year to date, but in December experienced a 3 percent decrease in average weekday ridership when compared to last year. Weekend ridership decreased 2 percent for Saturdays and 9 percent for Sundays.

MetroAccess average weekday ridership was 4,418 trips, an increase of 8 percent from the same period of last year. Year-to-date ridership is up 16 percent above last year's ridership and tracking exactly on budget.

CAPITAL FINANCES

Revenues

Revenues received to date for the FY 2008 capital budget total \$213 million. Three of the four federal grants for FY 2008 have been approved and are available for draw-down. State and Local contributions, received quarterly, include the first two quarters of FY 2008.

Costs

The current capital budget for FY 2008 is \$687 million, of which 36 percent, or \$248 million has been expended halfway through the fiscal year. The appendix includes budget and spending data for each capital project.

Capital Revenues			FY	2008		
(dollars in millions)			Red	ceived	Т	o be

Capital Project Highlights

Station Enhancements

This project funds the enhancement and restoration of rail passenger stations. The program includes rehabilitation, replacement and installation of concrete structures, sidewalks, stairwells, stairways, doors, exterior lighting, station signage and graphics.

The current program provides annually for 12 major and 12 minor enhancements at 24 rail stations. Major station enhancements have been completed at Rhode Island Avenue and Fort Totten stations. Major stations enhancements have been started at Southern Avenue, Branch Avenue, and Silver Spring stations. Minor station enhancements have been started at Gallery Place and Metro Center stations.

The FY 2008 budget is \$6.8 million.

Station and Tunnel Leak Mitigation

This project funds the repair of station and tunnel water leaks. It also maintains the structural integrity of the tunnel liners, eliminates unsafe wet conditions, and prevents corrosion of wayside systems and equipment. Fiscal 2008 activities are:

- Repair 2,200 leaks in stations and tunnels; and
- Repair 500 linear feet of concrete joints.

The FY 2008 budget is \$3.5 million.

Fare Collection Equipment

This project funds the replacement of automatic fare collection equipment. It includes fare gates, station monitoring systems, and express vendor conversions. Fiscal 2008 activities are:

- Upgrade all machines to accept the \$1 coin;
- Redesign the coin vault and purchase 100 coin cylinders; and
- Install new coin vaults and collection canisters in up to 20 of the vendors.

The FY 2008 budget is \$6.4 million.

OUTSTANDING DEBT

WMATA's outstanding debt as of December 31, 2007 is \$544.7 million, as shown in the table below.

The Series 1993 and 2003 bonds were issued to fund the Rail construction program. These bonds are being repaid by semi-annual debt service payments from the jurisdictions. This \$27.5 million annual debt service expense is reported as part of the operating budget and is always included on subsidy allocation tables.

The Series 2003B bonds were issued to increase funding for capital rehabilitation and maintenance of elevators and escalators. The debt service expense is being paid from passenger fare revenue. The FY05 fare increase set aside \$6 million per year in revenue to fund the debt service expense. These amounts are reported as part of the capital budget.

Commercial Paper is issued as short-term borrowing to support the Metro Matters budget and is scheduled to expire at the end of calendar year 2010. This program has a \$330 million ceiling on the amount of borrowing allowed. Additionally, there is internal borrowing to meet the cash flow needs of capital expenses.

Debt Type		December 31, 2007	
(dollars in millions)	Outstanding Principal	Annual Debt Service	Maturity Date
Bond Series 1993 Bond Series 2003	\$32.5 <u>\$108.9</u> \$141.3	\$11.9 <u>\$15.6</u> \$27.5	FY2015
