

M E M O R A N D U M

SUBJECT: Results of the Audit of WMATA's Financial Statements for FYs 2017 & 2016 (OIG 18-04) DATE: October 25, 2017

FROM: OIG – Geoffrey A. Cherrington *GAC*

TO: GMGR – Paul J. Wiedefeld

The Compact, requires an independent external auditor, as determined by the Inspector General, to annually audit WMATA's financial statements in accordance with applicable standards. In compliance with this requirement, OIG retained RSM US LLP (RSM) to conduct this annual audit. Transmitted with this memorandum is RSM's report which contains the following:

- Opinion on the Financial Statements.
- Management's Discussion and Analysis (Unaudited).

Objective of a Financial Statement Audit

The objective of a financial statement audit is to determine whether the audited entity's financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statement presentation.

The audit included, among other things, obtaining an understanding of WMATA and its operations, including internal control over financial reporting; evaluating the design and operating effectiveness of internal control and assessing risk; and testing relevant internal controls over financial reporting. Because of inherent limitations in any internal control, misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal control to future periods are subject to the risk that the internal control may become inadequate because of changes in conditions, or that the degree of compliance with the policies, or procedures may deteriorate.

FY 2017 Audit Results

- Unmodified opinion.

Office of Inspector General Oversight of RSM Performance

To fulfill our responsibilities under the contract for ensuring the quality of the audit work performed, we monitored RSM's audit of WMATA's FY2017 and FY2016 financial statements by:

- Reviewing RSM's audit approach and planning.
- Monitoring audit progress at key points.
- Examining the working papers related to planning and performing the audit and assessing WMATA's internal controls.
- Reviewing RSM's audit report to ensure compliance with applicable auditing standards.
- Coordinating the issuance of the audit report.
- Performing other procedures deemed necessary.

RSM is responsible for the attached auditors' report, dated October 20, 2017, and the conclusions expressed therein. OIG is responsible for technical and administrative oversight regarding the firm's performance under the terms of the contract. Our oversight, as differentiated from an audit in conformance with applicable standards, was not intended to enable us to express, and accordingly we do not express an opinion on WMATA's financial statements.

However, our monitoring review, as described above, disclosed no instances where RSM did not comply, in all material respects, with applicable auditing standards.

Meeting with the Audits & Investigations Committee

RSM discussed the results of the audit with the Audits & Investigations Committee on October 12, 2017.

RSM US LLP

Independent Auditor's Report

To the Board of Directors
Washington Metropolitan Area Transit Authority

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of the Washington Metropolitan Area Transit Authority (the Authority), as of and for the years ended June 30, 2017 and 2016, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the Authority, as of June 30, 2017 and 2016, and the changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedules of changes in the net pension liability, the schedule of employer contributions, and the schedule of funding progress for postemployment benefits other than pensions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

RSM US LLP

Management's Discussion and Analysis June 30, 2017 and 2016

As management of the Washington Metropolitan Area Transit Authority (Authority), we offer readers of the basic financial statements this overview and analysis of the financial activities of the Authority as of June 30, 2017 and 2016.

This discussion and analysis is designed to assist the reader in focusing on significant financial issues and activities and to identify any noteworthy changes in financial position. We encourage readers to consider the information presented here in conjunction with the basic financial statements, which immediately follow this section.

Fiscal Year 2017 Financial Highlights

- The assets of the Authority exceeded its liabilities as of the close of the fiscal year by \$10.4 billion (net position).
- A record \$1.1 billion was expended in capital-related improvements, which led to improved track infrastructure, transit facility and computer upgrades, railcar reliability, and escalator performance.
 - In June 2017, the Authority completed the SafeTrack program, which was an accelerated plan to address safety recommendations and rehabilitate the Metrorail system to improve safety and reliability with costs totaling approximately \$145.2 million.
 - The Authority purchased 196 new 7000-series railcars, 41 hybrid buses, 70 compressed natural gas (CNG) buses totaling over \$417.4 million, collectively.
 - The Authority retired 209 railcars totaling \$121.1 million.
 - The Authority made improvements to transit infrastructure of approximately \$682.9 million to upgrade its transit facilities and track structures.

Fiscal Year 2016 Financial Highlights

- The Authority's total net position increased \$305.6 million, primarily due to donated assets that resulted in an increase in capital contributions.
- Net capital assets increased by \$393.3 million primarily due to the following:
 - The Authority purchased 50 new state-of-the-art 7000-series railcars and 125 new hybrid buses totaling \$277.0 million collectively.
 - Montgomery County, Maryland donated the Paul S. Sarbanes Transit Center (Silver Spring Transit Center) to the Authority at a value of \$144.1 million. This transit center is a three level, multi-modal, fully compliant American with Disabilities Act accessible facility with a number of new customer amenities including real-time bus departure information, public restrooms, water fountains, escalators, bike racks/lockers, and enhanced neighborhood map displays.
 - MWAA donated \$76.9 million in additional assets relating to Phase 1 of the Silver Line to the Authority.
- Total liabilities increased by \$266.0 million, which was primarily due to the \$220.0 million issuance of the Series 2016A Gross Revenue Transit Bonds to finance capital costs.

Overview of the Financial Statements

This discussion and analysis serves as an introduction to the Authority's basic financial statements, which are comprised of the Statements of Net Position; Statements of Revenues, Expenses, and Changes in Net Position; Statements of Cash Flows; and the Notes to the Basic Financial Statements. This report also contains other required supplementary information in addition to the basic financial statements.

Basic Financial Statements. The Authority's basic financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (US GAAP), as applicable to governmental entities using the accrual basis of accounting. Under this basis, revenues are recognized in the period in which they are earned, and expenses are recognized in the period in which they are incurred regardless of the timing of the related cash flows.

- The **Statements of Net Position** presents financial information on all of the Authority's assets, liabilities, deferred outflows of resources and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of the Authority's financial condition; however, the reader should also consider other indicators, such as the rate of growth of operating subsidies, passenger fares, ridership levels, general economic conditions in the metropolitan area and the age and condition of capital assets used by the Authority.
- The **Statements of Revenues, Expenses, and Changes in Net Position** reports all of the revenues, Federal and jurisdiction subsidies, and capital contributions earned and all operating and nonoperating expenses incurred during the reporting periods. This statement presents how the Authority's net position changed from the prior fiscal year.
- The **Statements of Cash Flows** provides information on cash receipts and cash payments during the reporting period. This statement allows financial statement users to assess whether the Authority's current cash flows are sufficient to pay its obligations.
- The **Notes to the Basic Financial Statements** provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

The basic financial statements can be found on pages 16-74 of this report.

Required Supplementary Information (RSI). In addition to the basic financial statements and accompanying notes, this report also presents certain RSI concerning the Authority's defined benefit pension plans and other postemployment benefit (OPEB) plans to its employees. The RSI can be found on pages 75-90 of this report.

Financial Analysis

Condensed Statements of Net Position

The following table provides an overview of the Authority's financial position as of June 30, 2017, 2016 and 2015:

| | 2017 | 2016 | 2015 | 2017 vs 2016 | | 2016 vs 2015 | |
|----------------------------------|---------------|---------------|---------------|-------------------------------|--------|-------------------------------|--------|
| | | | | Increase (decrease) Amount | % | Increase (decrease) Amount | % |
| Current assets | \$ 821,311 | \$ 986,191 | \$ 1,024,474 | \$ (164,880) | (16.7) | \$ (38,283) | (3.7) |
| Capital assets, net | 12,386,019 | 12,218,882 | 11,825,566 | 167,137 | 1.4 | 393,316 | 3.3 |
| Other noncurrent assets | 305,596 | 480,193 | 459,195 | (174,597) | (36.4) | 20,998 | 4.6 |
| Total assets | 13,512,926 | 13,685,266 | 13,309,235 | (172,340) | (1.3) | 376,031 | 2.8 |
| Deferred outflows of resources | 449,516 | 299,649 | 230,235 | 149,867 | 50.0 | 69,414 | 30.1 |

| Total liabilities | 3,470,513 | 3,252,263 | 2,986,268 | 218,250 | 6.7 | 265,995 | 8.9 |
| Deferred inflows of resources | 140,573 | 207,583 | 333,694 | (67,010) | (32.3) | (126,111) | (37.8) |
| Net position: | | | | | | | |
| Net investment in capital assets | 11,610,645 | 11,573,665 | 11,135,124 | 36,980 | 0.3 | 438,541 | 3.9 |
| Restricted | 17,900 | 17,900 | 30,404 | - | 0.0 | (12,504) | (41.1) |
| Unrestricted | (1,277,189) | (1,066,496) | (946,020) | (210,693) | 19.8 | (120,476) | 12.7 |
| Total net position | \$ 10,351,356 | \$ 10,525,069 | \$ 10,219,508 | \$ (173,713) | (1.7) | \$ 305,561 | 3.0 |

Current Year

The Authority's total net position at June 30, 2017 decreased \$173.7 million, or 1.7%, from June 30, 2016. The significant changes are described below:

- Current assets decreased by \$164.9 million, or 16.7%, primarily due to the following:
 - Due from other governments decreased \$187.6 million, or 37.3%. The majority of this decrease was due to a reduction of federal grants receivables totaling \$272.6 million.
 - Cash and cash equivalents decreased \$59.3 million, or 69.8%, and investments decreased \$43.8 million, or 36.7%, primarily due to the use of the 2016A bond proceeds during fiscal year 2017.
 - The decreases above were offset by the current portion of the increases in accounts receivable and other assets, net of allowance of \$56.4 million, and an increase in prefunded tax advantage lease contract of \$65.4 million.
- Other noncurrent assets decreased by \$174.6 million or 36.4%. The decrease was due primarily to the termination of one of the three remaining railcar lease agreements on June 13, 2017.

Financial Analysis (continued)

Condensed Statements of Net Position (continued)

- Current liabilities increased by \$215.2 million, or 28.0%. These increases were primarily due to the following:
 - Accounts payable and accrued expenses increased \$9.0 million due to an increase in accrued operating and capital costs.
 - Due to other governments, increased \$104.5 million due to the timing of billings in advance as compared to expenses incurred for reimbursable projects and funds received from the disposition of federally funded assets of \$12.3 million that will be utilized against future capital grant costs.
 - Current portion of bonds payable increased \$50.4 million due to principal payable on the 2016A and 2009A Gross Revenue Transit Bonds.
 - Obligations under tax advantage lease agreements increased \$65.4 million due to the scheduled amounts payable per the lease agreements.

Prior Year

Significant changes are described below:

- Current assets decreased by \$38.3 million, or 3.7%. The decrease was partially due to a decrease in cash and cash equivalents of \$149.2 million, or 63.7%. The decrease in cash and cash equivalents was offset by an increase in investments totaling \$85.3 million, or 250.3%, which was due to the investment of the 2016A bond proceeds.
- Capital assets, net, increased by \$393.3 million, or 3.3%, which primarily resulted from an increase in capital spending. The Authority purchased 196 new 7000-series railcars for \$130.0 million and 125 new hybrid buses for \$147.0 million. In August 2015, Montgomery County, Maryland donated the Silver Spring Transit Center to the Authority, which consisted of \$9.0 million in land and \$135.1 million in transit facilities. In addition, \$76.9 million of assets relating to Phase 1 of the Silver Line were transferred to the Authority.
- Current liabilities decreased by \$49.3 million, or 6.0%, due to a \$58.8 million reduction in the line of credit and final payment of the Grant Anticipation Note (GAN) totaling \$83.3 million. These decreases were offset by the following:
 - Accounts payable and accrued expenses increased \$50.3 million due to an increase in accrued capital costs.
 - Due to other governments increased \$18.6 million due to the timing of billings in advance as compared to expenses incurred for reimbursable projects.
 - Accrued salaries and benefits increased \$11.4 million due to increases in the vacation liability totaling \$5.1 million and increases in accrued salaries totaling \$5.2 million.
 - Litigation and claims increased \$11.6 million due to an increase in case reserves and changes in trend assumptions in the actuarial projections of the liability.
- Noncurrent liabilities increased by \$315.3 million, or 14.5%, due to the issuance of bonds, and increases in OPEB and pension liabilities. On June 8, 2016, the Authority issued Series 2016A Gross Revenue Transit bonds for \$220.0 million to be used to finance capital costs. The liability for OPEB and pensions increased by \$57.1 million and \$35.5 million, respectively, both attributed to the increase of the projected actuarial costs of the respective benefits.

Financial Analysis (continued)

Condensed Statements of Revenues, Expenses, and Changes in Net Position

The following table provides an overview of the revenues, expenses, and changes in net position for the years ended June 30, 2017, 2016 and 2015:

| | 2017 | 2016 | 2015 | 2017 vs 2016 | | 2016 vs 2015 | |
|---|---------------|---------------|---------------|---------------------|---------|---------------------|--------|
| | | | | Increase (decrease) | | Increase (decrease) | |
| | | | | Amount | % | Amount | % |
| Operating and nonoperating revenues: | | | | | | | |
| Operating revenues | \$ 788,813 | \$ 859,165 | \$ 898,644 | \$ (70,352) | (8.2) | \$ (39,479) | (4.4) |
| Nonoperating revenues | 20,365 | 18,532 | 32,446 | 1,833 | 9.9 | (13,914) | (42.9) |
| Total operating and nonoperating revenues | 809,178 | 877,697 | 931,090 | (68,519) | (7.8) | (53,393) | (5.7) |
| Subsidies and capital contributions: | | | | | | | |
| Federal and jurisdiction subsidies | 1,074,539 | 927,960 | 839,477 | 146,579 | 15.8 | 88,483 | 10.5 |
| Capital contributions | 722,213 | 1,153,762 | 4,138,387 | (431,549) | (37.4) | (2,984,625) | (72.1) |

| Total revenues | 2,605,930 | 2,959,419 | 5,908,954 | (353,489) | (11.9) | (2,949,535) | (49.9) |
| Operating expenses | 2,756,894 | 2,629,972 | 2,547,881 | 126,922 | 4.8 | 82,091 | 3.2 |
| Nonoperating expenses | 22,749 | 23,886 | 27,160 | (1,137) | (4.8) | (3,274) | (12.1) |
| Total expenses | 2,779,643 | 2,653,858 | 2,575,041 | 125,785 | 4.7 | 78,817 | 3.1 |
| Change in net position | (173,713) | 305,561 | 3,333,913 | (479,274) | (156.9) | (3,028,352) | (90.8) |
| Net position, beginning of year | 10,525,069 | 10,219,508 | 6,885,595 | 305,561 | 3.0 | 3,333,913 | 48.4 |
| Net position, end of year | \$ 10,351,356 | \$ 10,525,069 | \$ 10,219,508 | \$ (173,713) | (1.7) | \$ 305,561 | 3.0 |

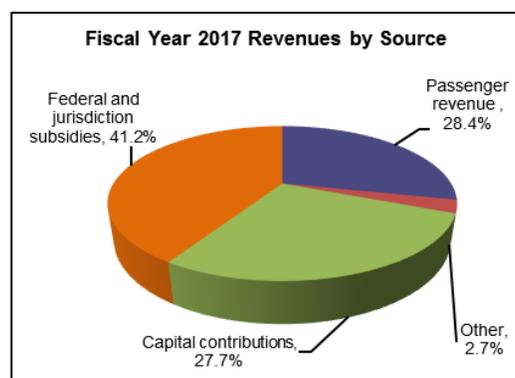

Revenues

Current Year

Total fiscal year 2017 revenues decreased by \$353.5 million, or 11.9%, from fiscal year 2016. Federal and jurisdiction subsidies, passenger revenue and Capital contributions account for 41.2%, 28.4%, and 27.7% of total fiscal year 2017 revenues, respectively.

Total operating revenues decreased \$70.4 million, or 8.2%, from fiscal year 2016. Significant changes are described below:

- Capital contributions decreased \$431.5 million, or 37.4% from fiscal year 2016. Key changes include:
 - Donations of the Silver Spring Transit Center and assets relating to Phase 1 of the Silver Line in fiscal year 2016 totaling \$144.1 million and 76.9 million, respectively, compared to \$36.6 million donated for the Silverline in fiscal year 2017.
 - The Authority wrote off \$272.6 million in prior year uncollectible federal grant receivables during fiscal year 2017. The uncollectible amounts were written off against capital contributions and funded by nonfederal sources. The removal of the uncollectible costs created additional capacity on the grants, which were used to fund new, eligible costs.

Financial Analysis (continued)

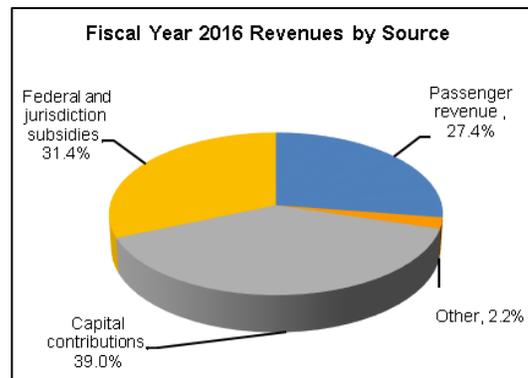

Condensed Statements of Revenues, Expenses, and Changes in Net Position (continued)

Revenues (continued)

- Passenger revenue decreased \$68.4 million, or 8.4%, due to a decrease in rail and bus ridership. Additional information on passenger trips is provided on the next page.
- Federal and jurisdiction subsidies increased by \$146.6 million, or 15.8%, to offset operating expenses in fiscal year 2017.

Prior Year

Total fiscal year 2016 revenues decreased by \$2.9 billion, or 49.9%, from fiscal year 2015. Capital contributions, Federal and jurisdiction subsidies, and passenger revenue account for 39.0%, 31.4%, and 27.4% of total fiscal year 2016 revenues, respectively.

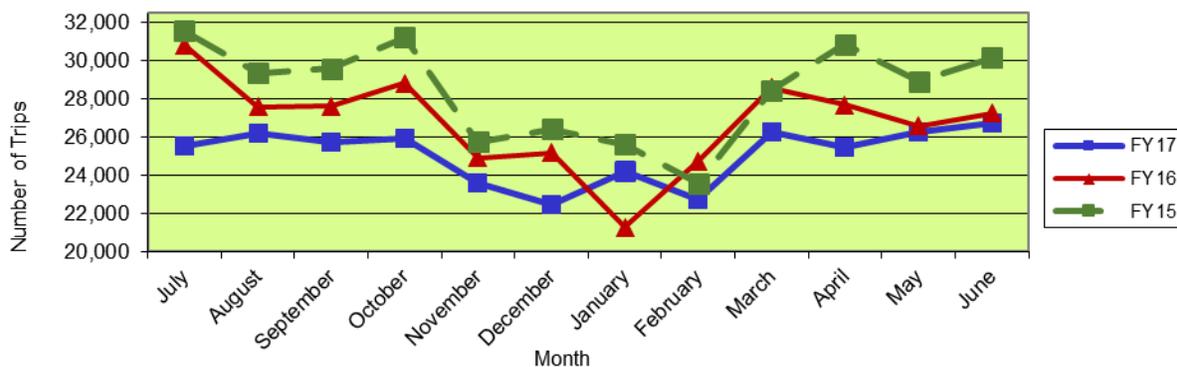

Total operating revenues for fiscal year 2016 decreased \$39.5 million, or 4.4%, from fiscal year 2015. Significant changes are described below:

- Capital contributions decreased \$2.9 billion, or 72.1%, primarily due to the \$3.0 billion donation of Phase 1 of the Silver Line assets in fiscal year 2015.
- Passenger revenue decreased \$45.0 million, or 5.3%, due to a decrease in rail and bus ridership.
- Federal and jurisdiction subsidies increased by \$88.5 million to offset operating expenses in fiscal year 2016.

Passenger Trips

Below is a trend of the number of passenger trips by month for the fiscal years ended June 30, 2017, 2016 and 2015 (in thousands):

Financial Analysis (continued)

Condensed Statements of Revenues, Expenses, and Changes in Net Position (continued)

Passenger Trips (continued)

Passenger trips decreased in fiscal year 2017 from fiscal year 2016, by 20.0 million, or 6.2%, in large part due to service disruptions resulting from the SafeTrack program. During fiscal year 2017, the Authority completed the SafeTrack program, which rehabilitated the Metrorail system to address safety

recommendations. The Authority conducted 14 SafeTrack surges that resulted in either continuous single-tracking or line segment closures, affecting the Blue, Red, Orange and Yellow line segments.

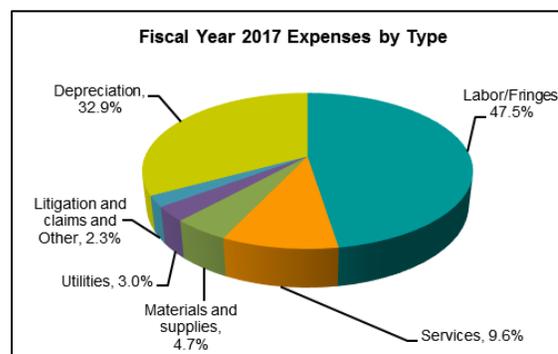

Passenger trips decreased in fiscal year 2016 by 20.4 million, or 6.0%, due to service reliability which caused baseline ridership to drop starting in August 2015.

Fiscal Year Expenses by Type

Current Year

Total operating and nonoperating expenses for fiscal year 2017, increased by \$125.8 million, or 4.7%, from fiscal year 2016.

Labor and fringe benefits are consistently the Authority's largest expenses, comprising 47.5% of total expenses. Depreciation is the next largest expense, which is expected due to the Authority's large capital asset base. All other types of expenses, as compared to total expenses, has remained relatively consistent since the prior year.

A review of significant changes is described below:

- Depreciation expense increased by \$79.9 million, which accounts for 32.9% of current year expenses, due primarily to an increase in depreciable assets placed into service which included the purchase of 7000-series state-of-the-art railcars, buses and other assets and additional Phase 1 Silver Line costs.
- Services increased by \$43.0 million, or 19.2%, due primarily to the utilization of service contracts to restore the Authority "Back2Good" as outlined by the General Manager/Chief Executive Officer's initiative pertaining to safety, service reliability and fiscal responsibility.
- Nonoperating expenses decreased \$1.1 million, or 4.8%, due primarily to the termination of one railcar lease, the early retirement of the 4000-series railcars that resulted in a loss on disposition of \$9.2 million and an increase in the amount of capitalized debt interest expense related to capital assets. The increase in capitalized interest expense increased the value of capital assets and decreased nonoperating expense.

Financial Analysis (continued)

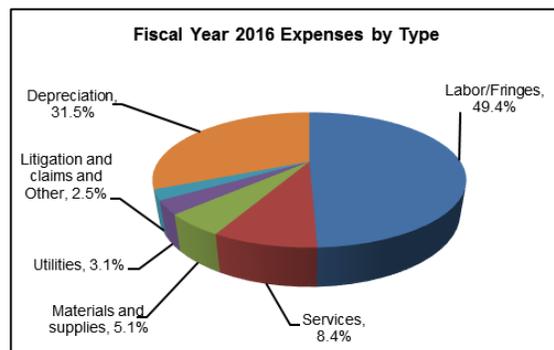

Condensed Statements of Revenues, Expenses, and Changes in Net Position (continued)

Fiscal Year Expenses by Type (continued)

Prior Year

Operating and nonoperating expenses increased by \$78.8 million, or 3.1%, compared to fiscal year 2015. A review of significant changes is described below:

- Depreciation expense increased by \$86.9 million, which accounts for 31.5% of current year expenses, due primarily to an increase in depreciable assets placed into service, which included the donation of the Silver Spring Transit Center; additional Phase 1 Silver Line costs; and the purchase of 7000-series railcars, buses and other assets.
- Utilities decreased by \$4.5 million, or 5.2%, due primarily to the reduction of fuel prices and decreased volume consumption of electricity due to the lower-than-scheduled railcar miles.

Capital Assets and Debt Administration

Capital Assets

The following table shows the capital assets of the Authority as of June 30, 2017, 2016 and 2015:

| Schedule of Capital Assets June 30, 2017, 2016 and 2015 (in thousands) | | | | | | | | |
|---|----------------------|----------------------|----------------------|-------------------|--------|-------------------|-------|--|
| | 2017 | 2016 | 2015 | 2017 vs 2016 | | 2016 vs 2015 | | |
| | | | | Amount | % | Amount | % | |
| Land | \$ 534,949 | \$ 559,772 | \$ 550,934 | \$ (24,823) | (4.4) | \$ 8,838 | 1.6 | |
| Buildings and improvements | 1,016,203 | 1,015,978 | 941,237 | 225 | 0.0 | 74,741 | 7.9 | |
| Transit facilities | 13,138,997 | 12,457,214 | 12,260,210 | 681,783 | 5.5 | 197,004 | 1.6 | |

Capital Assets and Debt Administration (continued)

Capital Assets (continued)

Current Year

Capital assets, net increased by \$167.1 million, or 1.4%, from fiscal year 2016. Significant capital asset activity during fiscal year 2017 is as follows:

- A large portion of the increase in capital spending is attributable to the purchase of 196 new 7000-series railcars for \$350.0 million, 41 new hybrid buses for \$38.3 million, 70 CNG buses for \$29.1 million, and \$36.6 million of additional Silver Line assets donated to the Authority. These additions were offset by the retirement of 182 1000-series railcars for \$54.6 million and 27 4000-series railcars for \$66.5 million, with an associated loss on disposition of \$9.2 million.
- Construction in progress decreased \$420.9 million, or 61.3%, attributable to over \$1.1 billion of new capital costs incurred, while over \$1.5 billion of capitalized costs were transferred into service during fiscal year 2017.
- Equipment and other increased \$223.5 million, or 5.6%, due primarily to the purchase of heavy equipment used during SafeTrack repairs, new computer servers, major computer system upgrades, and software implementation.

Prior Year

Capital assets, net increased by \$393.3 million, or 3.3%, from fiscal year 2015 due to an increase of planned capital spending of \$303.3 million. Significant capital asset activity during fiscal year 2017 is as follows:

- A large portion of the increase in capital spending is attributable to the purchase of 50 new 7000-series railcars for \$130.0 million, 125 new hybrid buses for \$147.0 million, and \$76.9 million of additional Silver Line assets donated to the Authority.
- Additionally, the Silver Spring Transit Center was donated to the Authority in August 2015, which consisted of \$9.0 million in land and \$135.1 million in transit facilities.

The Silver Spring Transit Center is a three level, urban, multi-modal, state of the art transit facility adjacent to the Silver Spring Metro Station, which is the first station in Maryland on the eastern end of the red line, and is the second-busiest metro station in Maryland. The facility eliminates the existing traffic conflicts, increases pedestrian safety, and facilitates multi-modal transfers. Specifically, it features over 30 bus bays serving Metrobus, Montgomery County Ride-On, VanGo, and University of Maryland shuttle; direct access to Metrorail and Maryland Area Regional Commuter (MARC) trains; 26 kiss and ride and taxi spaces; bicycle access; and connections to regional hiking, biking, and local trails. The Silver Spring Transit Center opened on September 20, 2015 and is serving thousands of commuters who make transfers in downtown Silver Spring, Maryland.

Additional information on the Authority's capital assets can be found in note 7 on pages 34-35 of this report.

Capital Assets and Debt Administration (continued)

Bonds and Other Debt

A schedule of the Authority's debt activity for the years ended June 30, 2017, 2016 and 2015 is shown below:

| | 2017 | 2016 | 2015 | 2017 vs 2016 | | 2016 vs 2015 | |
|---|-------------------|-------------------|-------------------|---------------------|---------------|---------------------|------------|
| | | | | Increase (decrease) | | Increase (decrease) | |
| | | | | Amount | % | Amount | % |
| Outstanding bonds | \$ 467,910 | \$ 476,195 | \$ 264,095 | \$ (8,285) | (1.7) | \$ 212,100 | 80.3 |
| Net unamortized bond premium (discount) | 15,731 | 22,683 | 9,992 | (6,952) | (30.6) | 12,691 | 127.0 |
| Grant anticipation note | - | - | 83,333 | - | 0.0 | (83,333) | 100.0 |
| Lines of credit | 150,000 | 160,000 | 218,750 | (10,000) | (6.3) | (58,750) | (26.9) |
| Tax advantage lease agreement | 152,081 | 258,649 | 273,054 | (106,568) | (41.2) | (14,405) | (5.3) |
| Total debt | <u>\$ 785,722</u> | <u>\$ 917,527</u> | <u>\$ 849,224</u> | <u>\$ (131,805)</u> | <u>(14.4)</u> | <u>\$ 68,303</u> | <u>8.0</u> |

Current Year

The Authority's total debt decreased by \$131.8 million, or 14.4%, from fiscal year 2016. Significant activities are described below:

- The Authority terminated one of the three remaining railcar lease agreements on June 13, 2017. The Authority removed approximately \$92.5 million of obligations under tax advantage leases.
- Short-term lines of credit were renegotiated with the total amount available of \$350.0 million. The outstanding balance on the lines of credit was \$150.0 million as of June 30, 2017.

Prior Year

The Authority's total debt increased by \$68.3 million, or 8.0%, from fiscal year 2015. Significant activities are described below:

- The Authority issued \$220.0 million of the Series 2016A Gross Revenue Transit Bonds in June 2016, to finance capital costs, fund a deposit to the debt service fund and pay certain issuance costs. The uninsured ratings of the Authority's bonds were AA- from Standard and Poor's, and A1 from Moody's as of June 30, 2016.
- The Authority's short-term lines of credit were renegotiated and the issuing financial institutions were reduced from three to two with the available amount remaining at \$302.5 million with the same terms. The outstanding balance on the lines of credit was \$160.0 million as of June 30, 2016.
- The Authority paid off the remaining \$83.3 million of the GAN in October 2015.

Additional information on the Authority's short and long-term liabilities can be found in note 9 on pages 37-41 and on the tax advantage lease agreements in note 13 on pages 72-74 of the report.

Future Capital Plans

Capital Improvement Program

On June 24, 2010, the Board of Directors (Board) approved a six-year, \$5.0 billion Capital Funding Agreement (CFA) with the Authority's jurisdictional partners. Effective June 30, 2017 and June 30, 2016, the Board approved a one-year extension to the existing CFA. This agreement provides the Authority with resources to procure new railcars and buses, advance safety initiatives, replace deteriorated or damaged track, repair and upgrade stations and tunnels, replace obsolete communications and train control equipment, and perform other general rehabilitation and replacement work at Authority facilities.

As part of the CFA, the Board is responsible for approving an annual capital budget and a new six-year capital plan prior to the start of each fiscal year. On March 23, 2017, the Board approved the fiscal years 2018-2023 Capital Improvement Plan (CIP) of \$7.5 billion, which includes capital investments by the Authority's jurisdictional partners of \$3.3 billion, and issuance of the Series 2017B Gross Revenue Transit Bonds. The fiscal year 2018-2023 Capital Improvement Program contains more than \$1.3 billion in safety-enhancing, state of good repair and operating vehicle reliability investments for fiscal year 2018. The Authority updates the jurisdictions and the Board quarterly about the progress of the capital program.

Silver Line Rail Expansion

On September 14, 2007, the Authority entered into a cooperative agreement with MWAA for the Silver Line as part of the Dulles Corridor Metrorail Project. The Silver Line will expand the current system from 106.1 miles to a total of 129.4 miles in two phases.

On July 26, 2014, Phase 1 was substantially completed and transferred to the Authority and was placed into service. Phase 1 added 11.7 miles to the existing metrorail system traveling west of the East Falls Church metrorail station to Wiehle Avenue in the Reston area of Fairfax County along the Dulles Corridor. The expansion included construction of five new stations: McLean, Tysons Corner, Greensboro, Spring Hill and Wiehle-Reston, a large park-and-ride lot at Wiehle Avenue and expanded storage capacity at the West Falls Church rail yard.

Construction on Phase 2 of the project began on August 7, 2013 and will include extending the metrorail system beginning at Wiehle Avenue to Reston Town Center, Herndon, Dulles International Airport and ending in Eastern Loudoun County in Ashburn. Phase 2 is slated to be operational by the year 2020.

Economic Factors

The regional economy and job market in the Washington, D.C. metropolitan area has performed relatively well compared to other large metro areas and the nation as a whole. According to the Bureau of Labor Statistics, the Washington metro area unemployment rate of 3.9% compares favorably to the national rate of 4.4%, and the metro area job growth rate of 1.6% was similar to the national average of 1.5%. The region added over 53,000 new jobs during the twelve months ending June 30, 2017, and ranked in the top 15 among major job markets. Professional and business services comprise the region's largest employment sector and accounts for approximately 32.9% of the region's economy, according to the George Mason University Center for Regional Analysis.

Requests for Information

This financial report is designed to provide interested readers with a general overview of the Authority's finances. Questions concerning this report or requests for additional financial information should be directed to the Comptroller, Office of Accounting, Washington Metropolitan Area Transit Authority, 600 Fifth Street, NW, Washington, D.C. 20001.

Overview of the Financial Statements

This discussion and analysis serves as an introduction to the Authority's basic financial statements, which are comprised of the Statements of Net Position; Statements of Revenues, Expenses, and Changes in Net Position; Statements of Cash Flows; and the Notes to the Basic Financial Statements. This report also contains other required supplementary information in addition to the basic financial statements.

Basic Financial Statements. The Authority's basic financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (US GAAP), as applicable to governmental entities using the accrual basis of accounting. Under this basis, revenues are recognized in the period in which they are earned, and expenses are recognized in the period in which they are incurred regardless of the timing of the related cash flows.

- The **Statements of Net Position** presents financial information on all of the Authority's assets, liabilities, deferred outflows of resources and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of the Authority's financial condition; however, the reader should also consider other indicators, such as the rate of growth of operating subsidies, passenger fares, ridership levels, general economic conditions in the metropolitan area and the age and condition of capital assets used by the Authority.
- The **Statements of Revenues, Expenses, and Changes in Net Position** reports all of the revenues, Federal and jurisdiction subsidies, and capital contributions earned and all operating and nonoperating expenses incurred during the reporting periods. This statement presents how the Authority's net position changed from the prior fiscal year.
- The **Statements of Cash Flows** provides information on cash receipts and cash payments during the reporting period. This statement allows financial statement users to assess whether the Authority's current cash flows are sufficient to pay its obligations.
- The **Notes to the Basic Financial Statements** provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

The basic financial statements can be found on pages 16-74 of this report.

Required Supplementary Information (RSI). In addition to the basic financial statements and accompanying notes, this report also presents certain RSI concerning the Authority's defined benefit pension plans and other postemployment benefit (OPEB) plans to its employees. The RSI can be found on pages 75-90 of this report.

Financial Analysis

Condensed Statements of Net Position

The following table provides an overview of the Authority's financial position as of June 30, 2017, 2016 and 2015:

| | 2017 | 2016 | 2015 | 2017 vs 2016 | | 2016 vs 2015 | |
|----------------------------------|---------------|---------------|---------------|-------------------------------|--------|-------------------------------|--------|
| | | | | Increase (decrease) Amount | % | Increase (decrease) Amount | % |
| Current assets | \$ 821,311 | \$ 986,191 | \$ 1,024,474 | \$ (164,880) | (16.7) | \$ (38,283) | (3.7) |
| Capital assets, net | 12,386,019 | 12,218,882 | 11,825,566 | 167,137 | 1.4 | 393,316 | 3.3 |

| Restricted | 17,900 | 17,900 | 30,404 | - | 0.0 | (12,504) | (41.1) |
| Unrestricted | (1,277,189) | (1,066,496) | (946,020) | (210,693) | 19.8 | (120,476) | 12.7 |
| Total net position | \$ 10,351,356 | \$ 10,525,069 | \$ 10,219,508 | \$ (173,713) | (1.7) | \$ 305,561 | 3.0 |

Current Year

The Authority's total net position at June 30, 2017 decreased \$173.7 million, or 1.7%, from June 30, 2016. The significant changes are described below:

- Current assets decreased by \$164.9 million, or 16.7%, primarily due to the following:
 - Due from other governments decreased \$187.6 million, or 37.3%. The majority of this decrease was due to a reduction of federal grants receivables totaling \$272.6 million.
 - Cash and cash equivalents decreased \$59.3 million, or 69.8%, and investments decreased \$43.8 million, or 36.7%, primarily due to the use of the 2016A bond proceeds during fiscal year 2017.
 - The decreases above were offset by the current portion of the increases in accounts receivable and other assets, net of allowance of \$56.4 million, and an increase in prefunded tax advantage lease contract of \$65.4 million.
- Other noncurrent assets decreased by \$174.6 million or 36.4%. The decrease was due primarily to the termination of one of the three remaining railcar lease agreements on June 13, 2017.

Financial Analysis (continued)

Condensed Statements of Net Position (continued)

- Current liabilities increased by \$215.2 million, or 28.0%. These increases were primarily due to the following:
 - Accounts payable and accrued expenses increased \$9.0 million due to an increase in accrued operating and capital costs.
 - Due to other governments, increased \$104.5 million due to the timing of billings in advance as compared to expenses incurred for reimbursable projects and funds received from the disposition of federally funded assets of \$12.3 million that will be utilized against future capital grant costs.
 - Current portion of bonds payable increased \$50.4 million due to principal payable on the 2016A and 2009A Gross Revenue Transit Bonds.
 - Obligations under tax advantage lease agreements increased \$65.4 million due to the scheduled amounts payable per the lease agreements.

Prior Year

Significant changes are described below:

- Current assets decreased by \$38.3 million, or 3.7%. The decrease was partially due to a decrease in cash and cash equivalents of \$149.2 million, or 63.7%. The decrease in cash and cash equivalents was offset by an increase in investments totaling \$85.3 million, or 250.3%, which was due to the investment of the 2016A bond proceeds.
- Capital assets, net, increased by \$393.3 million, or 3.3%, which primarily resulted from an increase in capital spending. The Authority purchased 196 new 7000-series railcars for \$130.0 million and 125 new hybrid buses for \$147.0 million. In August 2015, Montgomery County, Maryland donated the Silver Spring Transit Center to the Authority, which consisted of \$9.0 million in land and \$135.1 million in transit facilities. In addition, \$76.9 million of assets relating to Phase 1 of the Silver Line were transferred to the Authority.
- Current liabilities decreased by \$49.3 million, or 6.0%, due to a \$58.8 million reduction in the line of credit and final payment of the Grant Anticipation Note (GAN) totaling \$83.3 million. These decreases were offset by the following:
 - Accounts payable and accrued expenses increased \$50.3 million due to an increase in accrued capital costs.
 - Due to other governments increased \$18.6 million due to the timing of billings in advance as compared to expenses incurred for reimbursable projects.
 - Accrued salaries and benefits increased \$11.4 million due to increases in the vacation liability totaling \$5.1 million and increases in accrued salaries totaling \$5.2 million.
 - Litigation and claims increased \$11.6 million due to an increase in case reserves and changes in trend assumptions in the actuarial projections of the liability.
- Noncurrent liabilities increased by \$315.3 million, or 14.5%, due to the issuance of bonds, and increases in OPEB and pension liabilities. On June 8, 2016, the Authority issued Series 2016A Gross Revenue Transit bonds for \$220.0 million to be used to finance capital costs. The liability for OPEB and pensions increased by \$57.1 million and \$35.5 million, respectively, both attributed to the increase of the projected actuarial costs of the respective benefits.

Financial Analysis (continued)

Condensed Statements of Revenues, Expenses, and Changes in Net Position

The following table provides an overview of the revenues, expenses, and changes in net position for the years ended June 30, 2017, 2016 and 2015:

| | 2017 | 2016 | 2015 | 2017 vs 2016 | | 2016 vs 2015 | |
|---|---------------|---------------|---------------|---------------------|---------|---------------------|--------|
| | | | | Increase (decrease) | | Increase (decrease) | |

| Net position, beginning of year | 10,525,069 | 10,219,508 | 6,885,595 | 305,561 | 3.0 | 3,333,913 | 48.4 |
| Net position, end of year | \$ 10,351,356 | \$ 10,525,069 | \$ 10,219,508 | \$ (173,713) | (1.7) | \$ 305,561 | 3.0 |

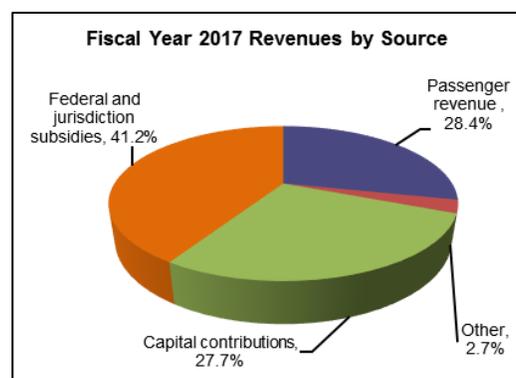

Revenues

Current Year

Total fiscal year 2017 revenues decreased by \$353.5 million, or 11.9%, from fiscal year 2016. Federal and jurisdiction subsidies, passenger revenue and Capital contributions account for 41.2%, 28.4%, and 27.7% of total fiscal year 2017 revenues, respectively.

Total operating revenues decreased \$70.4 million, or 8.2%, from fiscal year 2016. Significant changes are described below:

- Capital contributions decreased \$431.5 million, or 37.4% from fiscal year 2016. Key changes include:
 - Donations of the Silver Spring Transit Center and assets relating to Phase 1 of the Silver Line in fiscal year 2016 totaling \$144.1 million and 76.9 million, respectively, compared to \$36.6 million donated for the Silverline in fiscal year 2017.
 - The Authority wrote off \$272.6 million in prior year uncollectible federal grant receivables during fiscal year 2017. The uncollectible amounts were written off against capital contributions and funded by nonfederal sources. The removal of the uncollectible costs created additional capacity on the grants, which were used to fund new, eligible costs.

Financial Analysis (continued)

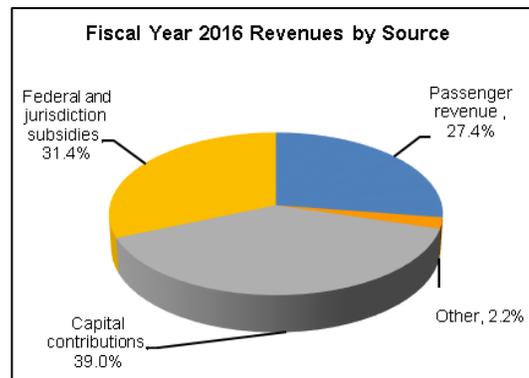

Condensed Statements of Revenues, Expenses, and Changes in Net Position (continued)

Revenues (continued)

- Passenger revenue decreased \$68.4 million, or 8.4%, due to a decrease in rail and bus ridership. Additional information on passenger trips is provided on the next page.
- Federal and jurisdiction subsidies increased by \$146.6 million, or 15.8%, to offset operating expenses in fiscal year 2017.

Prior Year

Total fiscal year 2016 revenues decreased by \$2.9 billion, or 49.9%, from fiscal year 2015. Capital contributions, Federal and jurisdiction subsidies, and passenger revenue account for 39.0%, 31.4%, and 27.4% of total fiscal year 2016 revenues, respectively.

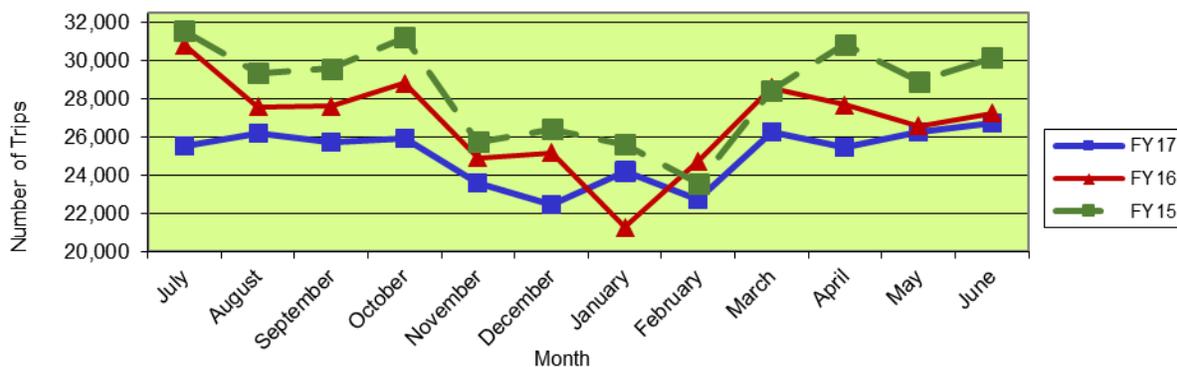

Total operating revenues for fiscal year 2016 decreased \$39.5 million, or 4.4%, from fiscal year 2015. Significant changes are described below:

- Capital contributions decreased \$2.9 billion, or 72.1%, primarily due to the \$3.0 billion donation of Phase 1 of the Silver Line assets in fiscal year 2015.
- Passenger revenue decreased \$45.0 million, or 5.3%, due to a decrease in rail and bus ridership.
- Federal and jurisdiction subsidies increased by \$88.5 million to offset operating expenses in fiscal year 2016.

Passenger Trips

Below is a trend of the number of passenger trips by month for the fiscal years ended June 30, 2017, 2016 and 2015 (in thousands):

Financial Analysis (continued)

Condensed Statements of Revenues, Expenses, and Changes in Net Position (continued)

Passenger Trips (continued)

Passenger trips decreased in fiscal year 2017 from fiscal year 2016, by 20.0 million, or 6.2%, in large part due to service disruptions resulting from the SafeTrack program. During fiscal year 2017, the Authority completed the SafeTrack program, which rehabilitated the Metrorail system to address safety

recommendations. The Authority conducted 14 SafeTrack surges that resulted in either continuous single-tracking or line segment closures, affecting the Blue, Red, Orange and Yellow line segments.

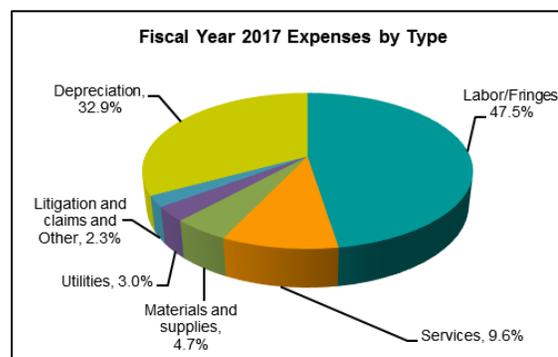

Passenger trips decreased in fiscal year 2016 by 20.4 million, or 6.0%, due to service reliability which caused baseline ridership to drop starting in August 2015.

Fiscal Year Expenses by Type

Current Year

Total operating and nonoperating expenses for fiscal year 2017, increased by \$125.8 million, or 4.7%, from fiscal year 2016.

Labor and fringe benefits are consistently the Authority's largest expenses, comprising 47.5% of total expenses. Depreciation is the next largest expense, which is expected due to the Authority's large capital asset base. All other types of expenses, as compared to total expenses, has remained relatively consistent since the prior year.

A review of significant changes is described below:

- Depreciation expense increased by \$79.9 million, which accounts for 32.9% of current year expenses, due primarily to an increase in depreciable assets placed into service which included the purchase of 7000-series state-of-the-art railcars, buses and other assets and additional Phase 1 Silver Line costs.
- Services increased by \$43.0 million, or 19.2%, due primarily to the utilization of service contracts to restore the Authority "Back2Good" as outlined by the General Manager/Chief Executive Officer's initiative pertaining to safety, service reliability and fiscal responsibility.
- Nonoperating expenses decreased \$1.1 million, or 4.8%, due primarily to the termination of one railcar lease, the early retirement of the 4000-series railcars that resulted in a loss on disposition of \$9.2 million and an increase in the amount of capitalized debt interest expense related to capital assets. The increase in capitalized interest expense increased the value of capital assets and decreased nonoperating expense.

Financial Analysis (continued)

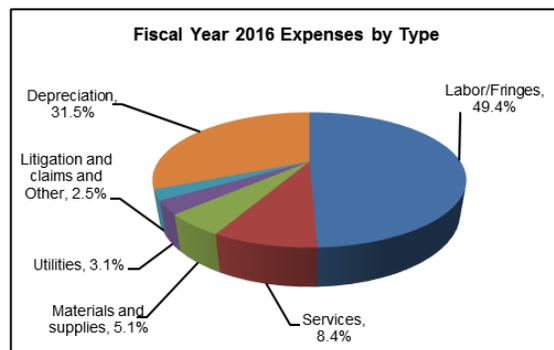

Condensed Statements of Revenues, Expenses, and Changes in Net Position (continued)

Fiscal Year Expenses by Type (continued)

Prior Year

Operating and nonoperating expenses increased by \$78.8 million, or 3.1%, compared to fiscal year 2015. A review of significant changes is described below:

- Depreciation expense increased by \$86.9 million, which accounts for 31.5% of current year expenses, due primarily to an increase in depreciable assets placed into service, which included the donation of the Silver Spring Transit Center; additional Phase 1 Silver Line costs; and the purchase of 7000-series railcars, buses and other assets.
- Utilities decreased by \$4.5 million, or 5.2%, due primarily to the reduction of fuel prices and decreased volume consumption of electricity due to the lower-than-scheduled railcar miles.

Capital Assets and Debt Administration

Capital Assets

The following table shows the capital assets of the Authority as of June 30, 2017, 2016 and 2015:

| Schedule of Capital Assets June 30, 2017, 2016 and 2015 (in thousands) | | | | | | | | |
|--|----------------------|----------------------|----------------------|-------------------|--------|-------------------|-------|--|
| | 2017 | 2016 | 2015 | 2017 vs 2016 | | 2016 vs 2015 | | |
| | | | | Amount | % | Amount | % | |
| Land | \$ 534,949 | \$ 559,772 | \$ 550,934 | \$ (24,823) | (4.4) | \$ 8,838 | 1.6 | |

Capital Assets and Debt Administration (continued)

Capital Assets (continued)

Current Year

Capital assets, net increased by \$167.1 million, or 1.4%, from fiscal year 2016. Significant capital asset activity during fiscal year 2017 is as follows:

- A large portion of the increase in capital spending is attributable to the purchase of 196 new 7000-series railcars for \$350.0 million, 41 new hybrid buses for \$38.3 million, 70 CNG buses for \$29.1 million, and \$36.6 million of additional Silver Line assets donated to the Authority. These additions were offset by the retirement of 182 1000-series railcars for \$54.6 million and 27 4000-series railcars for \$66.5 million, with an associated loss on disposition of \$9.2 million.
- Construction in progress decreased \$420.9 million, or 61.3%, attributable to over \$1.1 billion of new capital costs incurred, while over \$1.5 billion of capitalized costs were transferred into service during fiscal year 2017.
- Equipment and other increased \$223.5 million, or 5.6%, due primarily to the purchase of heavy equipment used during SafeTrack repairs, new computer servers, major computer system upgrades, and software implementation.

Prior Year

Capital assets, net increased by \$393.3 million, or 3.3%, from fiscal year 2015 due to an increase of planned capital spending of \$303.3 million. Significant capital asset activity during fiscal year 2017 is as follows:

- A large portion of the increase in capital spending is attributable to the purchase of 50 new 7000-series railcars for \$130.0 million, 125 new hybrid buses for \$147.0 million, and \$76.9 million of additional Silver Line assets donated to the Authority.
- Additionally, the Silver Spring Transit Center was donated to the Authority in August 2015, which consisted of \$9.0 million in land and \$135.1 million in transit facilities.

The Silver Spring Transit Center is a three level, urban, multi-modal, state of the art transit facility adjacent to the Silver Spring Metro Station, which is the first station in Maryland on the eastern end of the red line, and is the second-busiest metro station in Maryland. The facility eliminates the existing traffic conflicts, increases pedestrian safety, and facilitates multi-modal transfers. Specifically, it features over 30 bus bays serving Metrobus, Montgomery County Ride-On, VanGo, and University of Maryland shuttle; direct access to Metrorail and Maryland Area Regional Commuter (MARC) trains; 26 kiss and ride and taxi spaces; bicycle access; and connections to regional hiking, biking, and local trails. The Silver Spring Transit Center opened on September 20, 2015 and is serving thousands of commuters who make transfers in downtown Silver Spring, Maryland.

Additional information on the Authority's capital assets can be found in note 7 on pages 34-35 of this report.

Capital Assets and Debt Administration (continued)

Bonds and Other Debt

A schedule of the Authority's debt activity for the years ended June 30, 2017, 2016 and 2015 is shown below:

| | 2017 | 2016 | 2015 | 2017 vs 2016 | | 2016 vs 2015 | |
|---|------------|------------|------------|---------------------|--------|---------------------|--------|
| | | | | Increase (decrease) | | Increase (decrease) | |
| | | | | Amount | % | Amount | % |
| Outstanding bonds | \$ 467,910 | \$ 476,195 | \$ 264,095 | \$ (8,285) | (1.7) | \$ 212,100 | 80.3 |
| Net unamortized bond premium (discount) | 15,731 | 22,683 | 9,992 | (6,952) | (30.6) | 12,691 | 127.0 |
| Grant anticipation note | - | - | 83,333 | - | 0.0 | (83,333) | 100.0 |
| Lines of credit | 150,000 | 160,000 | 218,750 | (10,000) | (6.3) | (58,750) | (26.9) |
| Tax advantage lease agreement | 152,081 | 258,649 | 273,054 | (106,568) | (41.2) | (14,405) | (5.3) |
| Total debt | \$ 785,722 | \$ 917,527 | \$ 849,224 | \$ (131,805) | (14.4) | \$ 68,303 | 8.0 |

Current Year

The Authority's total debt decreased by \$131.8 million, or 14.4%, from fiscal year 2016. Significant activities are described below:

- The Authority terminated one of the three remaining railcar lease agreements on June 13, 2017. The Authority removed approximately \$92.5 million of obligations under tax advantage leases.
- Short-term lines of credit were renegotiated with the total amount available of \$350.0 million. The outstanding balance on the lines of credit was \$150.0 million as of June 30, 2017.

Prior Year

The Authority's total debt increased by \$68.3 million, or 8.0%, from fiscal year 2015. Significant activities are described below:

- The Authority issued \$220.0 million of the Series 2016A Gross Revenue Transit Bonds in June 2016, to finance capital costs, fund a deposit to the debt service fund and pay certain issuance costs. The uninsured ratings of the Authority's bonds were AA- from Standard and Poor's, and A1 from Moody's as of June 30, 2016.
- The Authority's short-term lines of credit were renegotiated and the issuing financial institutions were reduced from three to two with the available amount remaining at \$302.5 million with the same terms. The outstanding balance on the lines of credit was \$160.0 million as of June 30, 2016.
- The Authority paid off the remaining \$83.3 million of the GAN in October 2015.

Additional information on the Authority's short and long-term liabilities can be found in note 9 on pages 37-41 and on the tax advantage lease agreements in note 13 on pages 72-74 of the report.

Future Capital Plans

Capital Improvement Program

On June 24, 2010, the Board of Directors (Board) approved a six-year, \$5.0 billion Capital Funding Agreement (CFA) with the Authority's jurisdictional partners. Effective June 30, 2017 and June 30, 2016, the Board approved a one-year extension to the existing CFA. This agreement provides the Authority with resources to procure new railcars and buses, advance safety initiatives, replace deteriorated or damaged track, repair and upgrade stations and tunnels, replace obsolete communications and train control equipment, and perform other general rehabilitation and replacement work at Authority facilities.

As part of the CFA, the Board is responsible for approving an annual capital budget and a new six-year capital plan prior to the start of each fiscal year. On March 23, 2017, the Board approved the fiscal years 2018-2023 Capital Improvement Plan (CIP) of \$7.5 billion, which includes capital investments by the Authority's jurisdictional partners of \$3.3 billion, and issuance of the Series 2017B Gross Revenue Transit Bonds. The fiscal year 2018-2023 Capital Improvement Program contains more than \$1.3 billion in safety-enhancing, state of good repair and operating vehicle reliability investments for fiscal year 2018. The Authority updates the jurisdictions and the Board quarterly about the progress of the capital program.

Silver Line Rail Expansion

On September 14, 2007, the Authority entered into a cooperative agreement with MWAA for the Silver Line as part of the Dulles Corridor Metrorail Project. The Silver Line will expand the current system from 106.1 miles to a total of 129.4 miles in two phases.

On July 26, 2014, Phase 1 was substantially completed and transferred to the Authority and was placed into service. Phase 1 added 11.7 miles to the existing metrorail system traveling west of the East Falls Church metrorail station to Wiehle Avenue in the Reston area of Fairfax County along the Dulles Corridor. The expansion included construction of five new stations: McLean, Tysons Corner, Greensboro, Spring Hill and Wiehle-Reston, a large park-and-ride lot at Wiehle Avenue and expanded storage capacity at the West Falls Church rail yard.

Construction on Phase 2 of the project began on August 7, 2013 and will include extending the metrorail system beginning at Wiehle Avenue to Reston Town Center, Herndon, Dulles International Airport and ending in Eastern Loudoun County in Ashburn. Phase 2 is slated to be operational by the year 2020.

Economic Factors

The regional economy and job market in the Washington, D.C. metropolitan area has performed relatively well compared to other large metro areas and the nation as a whole. According to the Bureau of Labor Statistics, the Washington metro area unemployment rate of 3.9% compares favorably to the national rate of 4.4%, and the metro area job growth rate of 1.6% was similar to the national average of 1.5%. The region added over 53,000 new jobs during the twelve months ending June 30, 2017, and ranked in the top 15 among major job markets. Professional and business services comprise the region's largest employment sector and accounts for approximately 32.9% of the region's economy, according to the George Mason University Center for Regional Analysis.

Requests for Information

This financial report is designed to provide interested readers with a general overview of the Authority's finances. Questions concerning this report or requests for additional financial information should be directed to the Comptroller, Office of Accounting, Washington Metropolitan Area Transit Authority, 600 Fifth Street, NW, Washington, D.C. 20001.

Notes to the Basic Financial Statements June 30, 2017 and 2016

1. Background, Governance and Reporting Entity

(a) Organization

The Washington Metropolitan Area Transit Authority (Authority) was created, effective February 20, 1967, by the Interstate Compact (Compact) by and between Maryland, Virginia and the District of Columbia, pursuant to Public Law 89 774, approved November 6, 1966. The Authority was created to plan, construct, finance and operate a public transit system serving the Washington Metropolitan Area Transit Zone (Zone). The Zone includes the following local jurisdictions: the District of Columbia; cities of Alexandria, Falls Church, Fairfax, Manassas, and Manassas Park and counties of Arlington, Fairfax, Loudoun, and Prince William in Virginia; and the counties of Montgomery, Anne Arundel, Charles, and Prince George's in Maryland.

(b) Governance

The Authority is governed by a Board of Directors (Board) consisting of eight voting principal Directors and eight alternate Directors with each signatory to the compact and the Federal government appointing two voting Directors and two alternate Directors each. The Directors and Alternates for Virginia are appointed by the Northern Virginia Transportation Commission; for the District of Columbia, by the City Council; for Maryland, by the Washington Suburban Transit Commission; and for the Federal Government, by the Administrator of General Services.

The Board governs and sets policy for the Authority. Subject to policy direction and delegations from the Board, the General Manager is responsible for all activities of the Authority. The staff carries out these activities through the approved organizational structure of the Authority.

(c) Financial Reporting Entity

In accordance with the requirements of accounting principles generally accepted in the United States of America (US GAAP), as applicable to government entities, the financial statements must present the organization and its component units. The criteria used to determine whether organizations are to be included as component units within the Authority's reporting entity are as follows:

- 1) The Authority appoints the voting majority of the separate organization's Board, and the Authority has either:
 - a. a financial benefit or burden relationship with the separate organization or,
 - b. the Authority is able to impose its will upon the separate organization.
- 2) The separate organization is fiscally dependent upon the Authority and also has a financial benefit or burden relationship with the Authority.
- 3) It would be misleading to exclude the separate organization from the Authority's financial statements due to the nature and significance of the organization's relationship with the Authority.

1. Background, Governance and Reporting Entity (continued)

(c) Financial Reporting Entity (continued)

In evaluating the Authority as a reporting entity in accordance with the criteria previously stated, management has analyzed all potential component units that may fall within the Authority's oversight and control, and, as such, be included within the Authority's basic financial statements and has determined that the Authority does not have any component units.

Included within the Authority's financial reporting entity are the planning, development and operation of the transit facilities serving the Washington, D.C. metropolitan area which are funded from the combined resources of the U.S. Government, the State of Maryland, the Commonwealth of Virginia, the District of Columbia, the participating local jurisdictions, and the Authority's operations.

The Authority participates in six pension plans and four other postemployment benefit (OPEB) plans, which are further described in notes 10 and 11 to the basic financial statements (collectively referred to as the Plans). The Plans are not included as fiduciary funds or component units of the Authority. The Plans are legally separate and distinct entities from the Authority and are administered by their own boards. The Authority assumes no fiduciary responsibility and has no direct authority over the Plans. Accordingly, the accounts of the Plans are not included in the accompanying basic financial statements.

2. Summary of Significant Accounting Policies

The financial statements of the Authority have been prepared in conformity with US GAAP, as applicable to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting standards. The Authority's significant accounting policies are described below.

(a) Basis of Accounting

The financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Grants and other nonexchange transactions are recognized when all eligibility requirements imposed by the provider have been met.

(b) Cash and Cash Equivalents

The Authority's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less at the date of acquisition.

(c) Restricted Cash and Cash Equivalents

The Authority's restricted cash and cash equivalents at year end consists of surcharge amounts collected at parking facilities per agreements with Fairfax County, Virginia and the counties of Montgomery and Prince George's in Maryland. These surcharge amounts are to be used for payment of expenses related to the parking structures in the respective jurisdictions.

2. Summary of Significant Accounting Policies (continued)

(d) Investments

The Authority's investments are reported at fair value using quoted market prices or other observable inputs.

(e) Accounts Receivable and Other Assets

The major components of the accounts receivable and other assets balance are payments due from governmental agencies excluding contributing jurisdiction subsidy payments, companies, other receivables, and prepaid expenses. The accounts receivable balances are reported net of allowances totaling \$2.7 million and \$2.6 million as of June 30, 2017 and 2016, respectively.

(f) Materials and Supplies Inventory

Materials and supplies inventory is reported using the average cost method, net of an allowance for obsolete inventory of \$5.3 million and \$2.7 million as of June 30, 2017 and 2016, respectively.

(g) Capital Assets

Capital assets are defined as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. The Authority's policy is to expense maintenance and repair costs as incurred.

The Authority's capital assets are comprised of construction in progress, land, transit facilities, buildings and improvements, revenue vehicles and equipment and other. Capital assets are reported at historical costs and include labor and other ancillary costs associated with placing the capital asset into service. Donated or transferred capital assets are recognized at acquisition value.

Determinations of the cost of heavy rail assets placed in service are made with the assistance of the Authority's engineers. Such cost determinations are based upon the historical costs of the project. Interest expense related to construction and amounts expended for testing each phase of the rail system prior to commencement of revenue producing operations are capitalized.

Capital assets are depreciated using the straight-line method over the estimated useful lives of the assets. A full month's depreciation is calculated in the month an asset is placed in service. The useful lives employed in computing depreciation on principal classes of assets are as follows:

| | |
|----------------------------|-------------|
| Buildings and improvements | 10-45 years |
| Transit facilities | 10-75 years |
| Revenue vehicles | 4-35 years |
| Equipment and other | 4-20 years |

(h) Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses consist of amounts due to vendors and contractors.

2. Summary of Significant Accounting Policies (continued)

(i) Due to Other Governments

Due to other governments consists of payments received in advance from other government organizations for reimbursable projects, proceeds from the sale of capital assets and restricted parking lot receipts.

(j) Compensated Absences

The Authority's policy permits eligible employees to accumulate earned, but unused, sick leave and vacation benefits up to the maximum amounts shown in the table below:

| <u>Employee group</u> | <u>Employee Subgroup</u> | <u>Years of Service</u> | <u>Maximum Annual Leave Carryover Limit</u> | <u>Disposition in Excess of maximum Carryover Limit</u> |
|---------------------------------|-------------------------------------|-------------------------|---|---|
| Executive and Senior Management | Executive and Senior Management | N/A | 337.5 hours | Remaining balance is forfeited |
| Non-Represented employees | Non-Represented – 7.5 hour workdays | 0–15 years 15+ years | 225.0 hours 337.5 hours | Remaining balance is forfeited |
| | Non-Represented – 8 hour workdays | 0–15 years 15+ years | 240.0 hours 360.0 hours | Remaining balance is forfeited |
| Local 2 employees | Local 2 – 7.5 hour workdays | 0–15 years 15+ years | 225.0 hours 337.5 hours | 100% converted to sick |
| | Local 2 – 8 hour workdays | 0–15 years 15+ years | 240.0 hours 360.0 hours | 100% converted to sick |
| Fraternal Order of Police | Fraternal Order of Police | N/A | 400.0 hours | 50% converted to sick leave |
| Special Police Officers | Special Police Officers | N/A | 240.0 hours | Remaining balance is forfeited |
| Local 689 & 922 employee | Local 689 & 922 | 0–15 years | 240.0 hours | Remaining balance is forfeited |
| | | 15+ years | 360.0 hours | |

There is no liability for accumulated sick leave since the Authority's policy does not allow payment of unused sick leave to employees when they separate from service. All unused vacation is accrued when incurred as a portion of compensated absences on the Statements of Net Position. Generally, unused vacation in excess of the maximum annual carryover limit for the current period must be used by December 31 of the following period. Depending on the employees' respective group, remaining and unused vacation amounts in excess of the Authority's carryover limit are either forfeited or converted to sick leave and no longer included as a liability to the Authority.

2. Summary of Significant Accounting Policies (continued)

(j) Compensated Absences (continued)

The Authority's policy and the related collective bargaining agreements permit certain eligible employees to accumulate compensatory time. Non-represented, exempt employees may accrue and carry-forward compensatory time up to 75 hours in a calendar year, and the other employee groups may accrue and carry forward compensatory time up to 240 hours in a calendar year. Compensatory time balances in excess of the maximum annual carryover limits as of December 31st each year can be either paid out as overtime or forfeited, as dictated by the applicable policy or collective bargaining agreement. The compensatory balances accrued at June 30, 2017 and 2016 were \$2.7 million and \$3.2 million, and are included in the accrued salaries and benefits liability on the Statements of Net Position.

(k) Unearned Revenue

Unearned revenues are primarily payments received in advance for unredeemed fare media.

(l) Deferred Outflows of Resources and Deferred Inflows of Resource

Deferred outflows of resources represent a consumption of net position that applies to a future period, and as such will not be recognized as an outflow of resources (expense) until that time. These items are reported as a category below the assets on the Statements of Net Position.

Deferred inflows of resources represent an acquisition of net position that applies to a future period, and as such will not be recognized as an inflow of resources (revenue) until that time. These items are reported as a category below the liabilities on the Statements of Net Position.

The Authority has the following items that qualify for reporting as deferred outflows of resources or deferred inflows of resources: the accumulated change in the fair value component of the master commodity swap agreement for diesel fuel; deferred lease revenue received from sale-leaseback of railcars; deferred inflows and outflows from pensions; and jurisdictional advances for operating and capital subsidies,

(m) Hedging Derivative Instrument

The Authority has entered into a contract to purchase a minimum amount of diesel fuel based upon a differential price on the New York Mercantile Exchange (NYMEX) index. At the same time, the Authority has entered into a fuel swap agreement to hedge the price of the fuel contract. The swap agreement is reported at fair value, and amounts owed by the Authority are included in deferred outflows of resources and amounts due to the Authority are included in deferred inflows of resources on the Statements of Net Position.

(n) Operating and Nonoperating Revenues and Expenses

The Authority distinguishes operating revenues and expenses from nonoperating transactions. Operating revenues and expenses are those that result from providing services in connection with the Authority's principal ongoing operation. The principal operating revenues of the Authority are charges to customers for transportation that result in passenger fares. The Authority also recognizes as operating revenue amounts received for rental and advertisements. These amounts are recorded as revenue at the time services are performed.

2. Summary of Significant Accounting Policies (continued)

(n) Operating and Nonoperating Revenues and Expenses (continued)

Operating revenues and expenses also include all revenues and expenses not associated with capital and related financing, noncapital financing, or investing activities. Nonoperating revenues include Federal and jurisdictional subsidies, investment income and interest income from leasing transactions. Nonoperating expenses include interest expenses and loss on disposition of assets. Investment income is generated from the following sources: advance contributions for capital and operating needs.

The Authority operates at a loss, which is fully subsidized by participating jurisdictions. Operating losses are accrued as a receivable from the local participating jurisdictions in the year the loss is incurred. Operating subsidies are recognized as revenue when the jurisdictions appropriate the amount to the Authority and the period to which the appropriation pertains has begun. The determination of the Authority's jurisdictional subsidies is based on its operating loss and nonoperating revenues, and does not include depreciation expense or the noncash amounts related to OPEB and noncash pension benefits.

(o) Capital Contributions

The Authority's capital program is supported primarily through funding from Federal agencies and the jurisdictions. Any reduction in jurisdictional support or Federal grants will have a major impact on the Authority's capital program. Capital grant revenue from Federal awards is recognized upon grant award and the incurrence of eligible expenditures. Capital grant revenue from jurisdictions is recognized in the year for which the appropriation was made. Federal grants and jurisdictional capital subsidies total \$685.6 million and \$932.8 million in fiscal years 2017 and 2016, respectively.

Bad debts relating to federal grant receivables are written off against capital contributions. During fiscal year 2017, the Authority wrote off \$272.6 million in federal grant receivables relating to prior year disallowed costs. The deobligation relating to the uncollectible costs created additional grant capacity, which the Authority and the Federal Transit Administration used to enter into a new grant agreement to cover new, eligible program costs. During fiscal year 2017, \$101.4 million was expended against the new grant award, and \$61.9 million is available to spend in fiscal year 2018.

The Authority receives donated property and equipment from other governmental agencies, which represents approximately \$36.6 million and \$220.9 million of the Authority's capital contributions during fiscal years 2017 and 2016, respectively.

(p) Net Position

Net position represents the residual interest in the Authority's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, and consists of the net investment in capital assets; restricted net position, and unrestricted net position, as follows:

- **Net investment in capital assets** - The net investment in capital assets component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of bonds, notes, or other borrowings that are attributable to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are included in this component of net position.

2. Summary of Significant Accounting Policies (continued)

(p) Net Position (continued)

- **Restricted net position** – This category represents net position with external restrictions imposed by creditors, grantors, contributors; laws or regulations of other governments; or constraints imposed by law through constitutional provisions or enabling legislation that can be fulfilled by actions of the Authority pursuant to those stipulations or that expire by the passage of time.
- **Unrestricted net position** - This category represents the portion of net position that is not classified as “restricted” or “net investments in capital assets”. Unrestricted net position may be designated for specific purposes by action of management or the Board or may be otherwise limited by contractual agreements with outside parties. The deficit balance will require future funding.

When an expense is incurred for purposes for which both restricted and unrestricted resources are available, the Authority considers restricted funds to have been spent first.

(q) Reclassifications

Certain reclassifications were made to the comparative fiscal year 2016 amounts to conform to the fiscal year 2017 presentation in the basic financial statements.

(r) Use of Estimates

The preparation of the basic financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows, liabilities, deferred inflows, capital contributions, and disclosure of contingent assets and liabilities at the date of the basic financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(s) Adoption of New GASB Pronouncements

The Authority adopted the following GASB Statements in fiscal year 2017:

- **GASB Statement No. 77, Tax Abatement Disclosures:** The Statement requires governments that enter into tax abatement agreements to disclose descriptive information, such as the tax being abated, the authority under which tax abatements are provided, eligibility criteria, the mechanism by which taxes are abated, provisions for recapturing abated taxes, and the types of commitments made by tax abatement recipients. Governments should organize the disclosures by major tax abatement program and may disclose information for individual tax abatement agreements within those programs. The Authority has not entered into any tax abatement programs and therefore, the adoption of this Statement had no impact on the Authority's basic financial statements.
- **GASB Statement No. 78, Pensions Provided through Certain Multiple-Employer Defined Benefit Pensions:** This Statement amends the scope and applicability of Statement 68 to exclude pensions provided to employees of state or local governmental employers through a cost-sharing multiple-employer defined benefit pension plan that (1) is not a state or local governmental pension plan, (2) is used to provide defined benefit pensions both to employees of state or local governmental employers and to employees of

2. Summary of Significant Accounting Policies (continued)

(s) Adoption of New GASB Pronouncements (continued)

employers that are not state or local governmental employers, and (3) has no predominant state or local governmental employer (either individually or collectively with other state or local governmental employers that provide pensions through the pension plan). This Statement establishes requirements for recognition and measurement of pension expense, expenditures, and liabilities; note disclosures; and required supplementary information for pensions that have the characteristics described above. The Authority's employees do not participate in any cost-sharing multiple-employer defined benefit pension plans, thus the adoption of this Statement had no impact on the Authority's basic financial statements.

- **GASB Statement No. 80, Blending Requirements for Certain Component Units an amendment of GASB Statement No. 14:** This statement establishes additional blending requirements for component units organized as not-for-profit corporations in which the primary government is the sole corporate member. The Authority does not have any component units, thus the adoption of this Statement had no impact on the Authority's basic financial statements.

(t) Pronouncements Issued but Not Yet Adopted

GASB has issued the following pronouncements that may affect future financial presentation or fiscal practices of the Authority upon implementation:

| GASB Statement No. | GASB Statement | Adoption Required in Fiscal Year |
|--------------------------|---|--|
| 75 | <i>Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions</i> | 2018 |
| 81 | <i>Irrevocable Split Interest Agreements</i> | 2018 |
| 83 | <i>Certain Asset Retirement Obligations</i> | 2019 |
| 84 | <i>Fiduciary Activities</i> | 2020 |
| 85 | <i>Omnibus 2017</i> | 2018 |
| 86 | <i>Certain Debt Extinguishment Issues</i> | 2018 |
| 87 | <i>Leases</i> | 2021 |

GASB statements with required adoption in fiscal year 2018:

- Statement No. 75 establishes standards for recognizing and measuring expenses, liabilities, deferred outflows of resources, and deferred inflows of resources related to postemployment benefit plans other than pensions. The Authority contributes to four single-employer defined benefit healthcare plans for retirees and their dependents and, accordingly, the adoption of Statement No. 75 is expected to have a significant impact on the financial position of the Authority.
- Statement No. 81 establishes accounting and financial reporting standards for irrevocable split-interest agreements created through trusts—or other legally enforceable agreements with characteristics that are equivalent to irrevocable split-interest agreements—in which a donor irrevocably transfers resources to an intermediary, and the intermediary administers

2. Summary of Significant Accounting Policies (continued)

(t) Pronouncements Issued but Not Yet Adopted (continued)

these resources for the unconditional benefit of a government and at least one other beneficiary. The Authority currently does not have any split-interest agreements, therefore the adoption of Statement No. 81 will have no impact on the Authority.

- Statement No. 85 address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and pensions and other postemployment benefits. The adoption of Statement No. 85 is not expected to have a significant impact on the Authority.
- Statement No. 86 provides accounting and financial reporting guidance for in-substance defeasance of debt in which cash and other monetary assets acquired with only existing resources – resources other than the proceeds of refunding debt – are placed in an irrevocable trust for the sole purpose of extinguishing debt. The adoption of Statement No. 86 is not expected to have a significant impact on the Authority.

The Authority is currently evaluating the applicability and impact of GASB Statement Nos. 83, 84, and 87, which have required adoption periods subsequent to fiscal year 2018.

3. Plans of Financing

The planning, development and operation of the transit facilities serving the Washington, D.C. metropolitan area are funded from the combined resources of the U.S. Government; subsidy payments from participating jurisdictions in the State of Maryland, Commonwealth of Virginia, and District of Columbia; and the Authority's operations, which are primarily funded by passenger farebox revenues. In establishing its budget each year, the Authority makes an estimate of the revenues it expects to receive from operation of the system based on the current or projected fare schedule and ridership.

The shares of the jurisdictions' operating subsidy requirements per the approved fiscal years 2017 and 2016 budgets are as follows:

| <u>Jurisdiction</u> | <u>2017</u> | <u>2016</u> |
|----------------------------------|----------------|----------------|
| District of Columbia | 37.3 % | 37.3 % |
| Prince George's County, Maryland | 21.5 | 21.4 |
| Montgomery County, Maryland | 16.7 | 16.6 |
| Fairfax County, Virginia | 13.7 | 13.6 |
| All other jurisdictions | 10.8 | 11.1 |
| Total | <u>100.0 %</u> | <u>100.0 %</u> |

The Authority's Capital Improvement Program is based on the results of an extensive needs assessment, the requirement to align resources to rehabilitate the existing systems, and to grow ridership. The Authority's capital budget is funded generally by Federal grants; substantial capital contributions provided by participating jurisdictions in excess of Federal match requirements; and the issuance of debt.

4. Cash, Deposits and Investments

As provided in the amended Compact, any monies of the Authority may, at the discretion of the Board and subject to any agreement or covenant between the Authority and the holders of its debt obligations limiting or restricting classes of investments, be invested in the following:

- 1) Direct obligation of, or obligations guaranteed by, the United States;
- 2) Bonds, debentures, notes, or other evidences of indebtedness issued by agencies of the United States;
- 3) Domestic and Eurodollar certificates of deposit;
- 4) Securities that qualify as lawful investments and may be accepted as security for fiduciary, trust and public funds under the control of the United States or any officer or officers thereof; or securities eligible as collateral for deposits of monies of the United States; or
- 5) Bonds, debentures, notes or other evidences of indebtedness issued by a domestic corporation provided that such obligations are nonconvertible and at the time of their purchase are rated in the highest rating categories by one or more nationally recognized bond rating agencies.

(a) Cash and Cash Equivalents

The Authority's bank balances as of June 30, 2017 and 2016 are as follows (in thousands):

| Cash and Cash Equivalents | 2017 | | 2016 | |
|--------------------------------------|------------------|------------------|-------------------|-------------------|
| | Carrying Amount | Bank Balance | Carrying Amount | Bank Balance |
| Deposits insured or collateralized | \$ 11,596 | \$ 14,575 | \$ 1,456 | \$ 4,270 |
| Money market account | 40 | 40 | 33 | 33 |
| Repurchase agreements (unrestricted) | 8,334 | 8,334 | 77,065 | 77,065 |
| Repurchase agreements (restricted) | 32,254 | 32,254 | 30,743 | 30,743 |
| Cash on hand | 5,687 | - | 6,364 | - |
| Total cash and deposits | <u>\$ 57,911</u> | <u>\$ 55,203</u> | <u>\$ 115,661</u> | <u>\$ 112,111</u> |

The Authority's bank deposit account balances are Federal Deposit Insurance Corporation (FDIC) insured up to \$250,000, and any excess amounts are secured at 102%, by the pledge of eligible collateral. The depository banks pledge collateral to the Authority, which is held in a restricted account at the Federal Reserve Bank as a custodian, and at the Bank of New York Mellon as a custodian and collateral agent.

In addition, one depository bank has pledged an irrevocable standby letter of credit as collateral, issued by the Federal Home Loan Bank, which is held by the Authority.

The Authority's cash equivalents are valued at amortized cost.

4. Cash, Deposits and Investments (continued)

(b) Investments

i) Interest Rate Risk

The Authority does not have a formal investment policy that limits investment maturities. However, as a means of limiting its exposure to fair value losses caused by rising interest rates, the Authority's practice is to structure its investment portfolio maturities to meet cash flow requirements. This results in short term maturities for investments for operations and capital projects. On average, investment maturities are less than six months at June 30, 2017 and 2016.

As of June 30, 2017 and 2016, the Authority has the following investments (in thousands):

| Investment Type | Fair Value June 30, 2017 | Investment Maturities as of June 30, 2017 | | | |
|--------------------------|-----------------------------|---|----------------------|-------------|----------------------|
| | | Less than 6 Months | 7 Months – 1 Year | 1–3 Years | More than 3 Years |
| United States Treasuries | \$ 2,593 | \$ - | \$ - | \$ - | \$ 2,593 |
| United States Agencies | 72,935 | 72,935 | - | - | - |
| Total investments | 75,528 | 72,935 | - | - | 2,593 |
| Accrued interest | 50 | - | - | - | - |
| Total | <u>\$ 75,578</u> | <u>\$ 72,935</u> | <u>\$ -</u> | <u>\$ -</u> | <u>\$ 2,593</u> |

| Investment Type | Fair Value June 30, 2016 | Investment Maturities as of June 30, 2016 | | | |
|--------------------------|-----------------------------|---|----------------------|-------------|----------------------|
| | | Less than 6 Months | 7 Months – 1 Year | 1–3 Years | More than 3 Years |
| United States Treasuries | \$ 2,861 | \$ - | \$ - | \$ - | \$ 2,861 |
| United States Agencies | 116,512 | 116,512 | - | - | - |
| Total investments | 119,373 | 116,512 | - | - | 2,861 |
| Accrued interest | 47 | - | - | - | - |
| Total | <u>\$ 119,420</u> | <u>\$ 116,512</u> | <u>\$ -</u> | <u>\$ -</u> | <u>\$ 2,861</u> |

ii) Credit Risk

The Authority's Compact, Article XVI, section 69(b), signed by the governing jurisdictions, includes investments that are direct obligations of, or obligations guaranteed by, the U.S. Government as well as evidences of indebtedness issued by agencies of the U.S. Government or indebtedness issued by a domestic corporation, provided that such obligations are rated at the time of purchase in the highest rating categories by a nationally recognized bond rating agency.

4. Cash, Deposits and Investments (continued)

(b) Investments (continued)

ii) Credit Risk (continued)

The Authority's investments which have the implicit guarantee of the U.S. Government, were, at the time of purchase, awarded the highest rating by one or more of the nationally recognized rating organizations: Standard and Poor's, Moody's Investor Service, or Fitch Ratings.

The following table summarizes the ratings of the Authority's debt securities from Moody's Investor Service as of June 30, 2017 and 2016 (in thousands):

| <u>Investment Type</u> | <u>Fair Value June 30, 2017</u> | <u>Fair Value June 30, 2016</u> | <u>Rating</u> |
|---------------------------------|-------------------------------------|-------------------------------------|---------------|
| United States Treasuries | \$ 2,593 | \$ 2,861 | Aaa |
| United States Agencies | <u>72,935</u> | <u>116,512</u> | Aaa |
| Total investments at fair value | <u>\$ 75,528</u> | <u>\$ 119,373</u> | |

iii) Custodial Credit Risk

The Authority does not have a formal policy for custodial credit risk. The Authority is not exposed to custodial credit risk because all securities are in the Authority's name.

5. Fair Value Measurements

The Authority categorizes its fair value measurements within the fair value hierarchy established by US GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are unobservable inputs.

The Authority has the following recurring fair value measurements as of June 30, 2017 and 2016 (in thousands):

| | <u>June 30, 2017</u> | | | |
|--------------------------|----------------------|-----------------|-------------------|----------------|
| | <u>Fair Value</u> | <u>Level 1</u> | <u>Level 2</u> | <u>Level 3</u> |
| Investments by type: | | | | |
| United States Treasuries | \$ 2,593 | \$ 2,593 | \$ - | \$ - |
| United States Agencies | <u>72,935</u> | <u>-</u> | <u>72,935</u> | <u>-</u> |
| Total investments | <u>\$ 75,528</u> | <u>\$ 2,593</u> | <u>\$ 72,935</u> | <u>\$ -</u> |
| Fuel swap derivative | <u>\$ (1,169)</u> | <u>\$ -</u> | <u>\$ (1,169)</u> | <u>\$ -</u> |

5. Fair Value Measurements (continued)

| | June 30, 2016 | | | |
|--------------------------|----------------------|-----------------|---------------------|-----------------|
| | Fair Value | Level 1 | Level 2 | Level 3 |
| Investments by type: | | | | |
| United States Treasuries | \$ 2,861 | \$ 2,861 | \$ - | \$ - |
| United States Agencies | 116,512 | - | 116,512 | - |
| Total investments | <u>\$ 119,373</u> | <u>\$ 2,861</u> | <u>\$ 116,512</u> | <u>\$ -</u> |
| Fuel swap derivative | <u>\$ 1,629</u> | <u>\$ -</u> | <u>\$ 1,629</u> | <u>\$ -</u> |

United States Treasuries are valued using prices quoted in active markets. The United States Agencies are valued using matrix pricing. The fuel swap derivative was valued using an income approach, which is a mathematical approximation of the market, derived from proprietary models that are based on certain assumptions regarding past, present and future market conditions, as well as certain financial information.

6. Due from Other Governments

Since inception, the Authority has operated at a loss, which has been fully subsidized each year by the participating jurisdictions pursuant to the Compact. For purposes of determining the current year's operating loss to be funded by the local participating jurisdictions, the Authority calculates the results of transit operations on an agreed upon basis different from that reflected in the Statements of Revenues, Expenses, and Changes in Net Position.

During fiscal year 2017, the Authority wrote off \$272.6 million in prior year uncollectible federal grant receivables. The current amounts due from other governments are as follows at June 30, 2017 and 2016 (in thousands):

| | June 30, 2017 | June 30, 2016 |
|--------------------------------|----------------------|----------------------|
| Federal grants receivable | \$ 218,757 | \$ 487,179 |
| Jurisdiction operating subsidy | 96,554 | 15,728 |
| Total | <u>\$ 315,311</u> | <u>\$ 502,907</u> |

The cumulative effects of the different agreed upon bases, which result in long term amounts due from other governments are as follows at June 30, 2017 and 2016 (in thousands):

| | June 30, 2017 | June 30, 2016 |
|--|----------------------|----------------------|
| Agreed-upon funding of employee vacation liability and related taxes | \$ 82,659 | \$ 79,994 |
| Agreed-upon funding of claims for injuries and damages | 151,357 | 156,626 |
| Total accumulated difference | <u>\$ 234,016</u> | <u>\$ 236,620</u> |

7. Capital Assets

Capital assets activity for the years ended June 30, 2017 and 2016 is as follows (in thousands):

| | <u>June 30, 2016</u> | <u>Additions</u> | <u>Reductions</u> | <u>June 30, 2017</u> |
|---|----------------------|---------------------|-----------------------|----------------------|

During the fiscal year ended June 30, 2017, the Authority retired 182 of the 1000-series railcars and began accelerating the retirement of the 4000-Series railcars, resulting in a net loss of \$9.2 million on the Statements of Revenues, Expenses, and Changes in Net Position. The 182 of the 1000-series railcars that were retired in fiscal year 2017 were at the end of their useful life and therefore no loss was recognized.

The Metropolitan Washington Airport Authority (MWAA) donated assets totaling \$36.6 million relating to subsequent costs incurred for the completion of Phase I of the Dulles Corridor Metrorail Project in fiscal year 2017. These capital assets were recorded at their acquisition value and were reported as a capital contribution in the Statements of Revenues, Expenses, and Changes in Net Position.

Additions to construction in progress include capitalized labor and the related overhead of approximately \$222.3 million and \$210.3 million in fiscal years 2017 and 2016, respectively.

During the fiscal year ended June 30, 2016, Montgomery County, Maryland donated the Paul S. Sarbanes Transit Center to the Authority. On August 13, 2015, land and transit facilities in the amount of \$9.0 million and \$135.1 million, respectively, were recorded at their acquisition value and reported as a capital contribution in the Statements of Revenues, Expenses, and Changes in Net Position.

MWAA donated \$76.9 million of assets to the Authority relating to subsequent costs incurred during fiscal year 2016 to bring Phase I of the Dulles Corridor Metrorail Project to completion. These capital assets were recorded at their acquisition value and were reported as a capital contribution in the Statements of Revenues, Expenses, and Changes in Net Position.

Certain reclassifications were made to the June 30, 2015 balances by asset category to agree with the current year presentation. These reclassifications had no effect on the net capital assets reported as of June 30, 2016.

8. Due to Other Governments

The amounts in due to other governments include parking garage surcharges the Authority collects on behalf of several local jurisdictions, which total \$33.4 million and \$31.9 million as of June 30, 2017 and 2016, respectively.

Additional amounts in due to other governments reflect funds collected from the sale of various capital assets funded by Federal agencies and jurisdictions, which total \$12.3 million as of June 30, 2017 and \$24.3 thousand as of June 30, 2016. The Authority will utilize these funds to offset future capital asset acquisitions upon approval to retain the proceeds.

Also, included in due to other governments are funds the Authority receives in advance to perform reimbursable construction projects on behalf of other jurisdictions. During fiscal years 2017 and 2016, the Authority received \$46.0 million and \$68.3 million, respectively, and expended \$24.3 million and \$52.0 million, respectively, on labor, overhead, materials, and equipment to perform these services. Additionally, the Authority billed \$68.6 million in advance for reimbursable projects during fiscal year 2017.

As of June 30, 2017 and 2016, the remaining advances due to jurisdictions for these reimbursable projects totaled \$147.0 million and \$56.7 million, respectively.

9. Short and Long-Term Liabilities

Changes in short and long term liabilities for the years ended June 30, 2017 and 2016 are as follows (in thousands):

| | <u>June 30, 2016</u> | <u>Additions</u> | <u>Reductions</u> | <u>June 30, 2017</u> | <u>Due within one year</u> |
|---------------------------------------|----------------------|------------------|-------------------|----------------------|--------------------------------|

9. Short and Long-Term Liabilities (continued)

(a) Grant Anticipation Note

A privately placed one year Grant Anticipation Note (GAN) was issued in October 2014 for \$200.0 million, at an interest rate of 0.75%, to support the short-term cash flow needs of the capital program. Levels of unrestricted cash for the Authority's capital program were impacted by timing delays of Federal grant reimbursements due to restrictions imposed by the Federal Transit Administration resulting from findings identified in a June 2014 Financial Management Oversight Review report. In March 2015, the interest rate increased from 0.75% to 0.80% as a result of Moody's Ratings Service downgrading the Authority's credit rating. The Authority paid the final installment on the GAN's on October 22, 2015.

(b) Lines of Credit

The Authority has two "364 day" lines of credit outstanding, which are due March 26, 2018. The total amount available under the lines of credit was \$350.0 million and \$302.5 million in fiscal years 2017 and 2016, respectively. The availability fees and accrued interest are payable both monthly and quarterly, depending on the lender and on the terms of the agreements, commencing July 2010. Accrued interest is computed based on the London Interbank Offered Rate (LIBOR), plus a margin of less than 100 basis points.

At June 30, 2017, the Authority had \$150.0 million drawn against one of the two outstanding lines of credit. The interest rate on this line of credit was 1.82%.

At June 30, 2016, the Authority had \$160.0 million drawn against two outstanding lines of credit. The interest rates on the lines of credit were 1.20% and 1.36%.

(c) Bonds Payable

The Authority may issue bonds pursuant to the Compact and the Bond Resolution of the Authority. The following bonds are outstanding at June 30, 2017 and 2016 (in thousands):

| | 2017 | | |
|---|-------------------|---|-------------------|
| | Principal | Unamortized premium (discount) | Net |
| Series 2009A, 4.677% dated June 9, 2009, due semi-annually through July 1, 2032 | \$ 192,910 | \$ 9,911 | \$ 202,821 |
| Series 2009B, 4.749% dated June 9, 2009, due semi-annually through July 1, 2034 | 55,000 | (839) | 54,161 |
| Series 2016A, 4.359% dated June 8, 2016, due semi-annually through July 1, 2019 | 220,000 | 6,659 | 226,659 |
| | <u>\$ 467,910</u> | <u>\$ 15,731</u> | <u>\$ 483,641</u> |

9. Short and Long-Term Liabilities (continued)

(c) Bonds Payable (continued)

| | 2016 | | |
|---|-------------------|---|-------------------|
| | Principal | Unamortized premium (discount) | Net |
| Series 2009A, 4.677% dated June 9, 2009, due semi-annually through July 1, 2032 | \$ 201,195 | \$ 10,418 | \$ 211,613 |
| Series 2009B, 4.749% dated June 9, 2009, due semi-annually through July 1, 2034 | 55,000 | (875) | 54,125 |
| Series 2016A, 4.359% dated June 8, 2016, due semi-annually through July 1, 2019 | 220,000 | 13,140 | 233,140 |
| | <u>\$ 476,195</u> | <u>\$ 22,683</u> | <u>\$ 498,878</u> |

On June 8, 2016, the Authority issued \$220.0 million of the Series 2016A Gross Revenue Transit Bonds, with an average interest rate of 4.359%, primarily to finance capital costs.

On June 9, 2009, the Authority issued \$242.7 million of the Series 2009A Gross Revenue Transit Bonds, with an average interest rate of 4.677%, to retire a portion of commercial paper notes payable. The Authority also issued \$55.0 million of the 2009B Gross Revenue Transit Bonds, with an average net interest rate of 4.749%. The 2009B Funds were used to finance capital cost components for the Authority's Metro Matters Programs. The 2009B Gross Revenue Transit Bonds were issued under the Build America Bond (BAB) Program.

The American Recovery and Reinvestment Act of 2009 created the BAB program, which authorizes state and local governments (Municipal Issuers) to issue BABs as taxable bonds in 2009 and 2010 to finance any capital expenditures for which they otherwise could issue tax-exempt governmental bonds. The Municipal Issuers receive a direct Federal subsidy payment for a portion of their borrowing costs on BABs equal to 35% of the total coupon interest paid to investors.

The Authority is required to make semiannual payments of principal and/or interest on each series of bonds. The Authority must comply with certain covenants associated with these outstanding bonds, the more significant of which are as follows:

- The Authority must punctually pay principal and interest according to provisions in the bond document.
- Except for certain instances, the Authority cannot sell, mortgage, lease, or otherwise dispose of transit system assets without filing a certification by the General Manager and Treasurer with the Trustee and Bond Insurers that such action will not impede or restrict the operation of the transit system.

9. Short and Long-Term Liabilities (continued)

(c) Bonds Payable (continued)

- The Authority must maintain certain insurance or self-insurance covering the assets and operations of the transit system at all times.
- The Authority must file Annual Financial Information with the Trustee and other entities, which includes audited financial statements, the Comprehensive Annual Financial Report (CAFR), and certain other financial information and operating data, within 120 days of the fiscal year end.

(d) Bonds Debt Service Requirements

Debt service requirements for the bonds payable are as follows (in thousands):

| | <u>Principal</u> | <u>Interest</u> |
|------------------------------------|-------------------|-------------------|
| Fiscal Year: | | |
| 2018 | \$ 58,690 | \$ 21,050 |
| 2019 | 94,125 | 16,344 |
| 2020 | 94,580 | 12,465 |
| 2021 | 10,060 | 11,937 |
| 2022 | 10,585 | 11,381 |
| 2023–2027 | 61,865 | 47,495 |
| 2028–2032 | 79,860 | 28,634 |
| 2033–2035 | 58,145 | 4,192 |
| | <u>467,910</u> | <u>153,498</u> |
| Net unamortized premium (discount) | <u>15,731</u> | <u>-</u> |
| | <u>\$ 483,641</u> | <u>\$ 153,498</u> |

(e) Bond Covenant Noncompliance

Article I, Sections 1.2 and 1.3 of the Continuing Disclosure Agreement for the Series 2009A and 2009B bonds requires the Authority to provide, to the Trustee and to other entities as provided by law, Annual Financial Information within 120 days after the close of the fiscal year. The Annual Financial Information includes the audited financial statements, the CAFR, and certain other financial information and operating data. The fiscal year 2016 audited financial statements were filed within the 120 day reporting requirement; however, the fiscal year 2016 CAFR and certain other financial information and operating data were not filed timely. As of the date of this report, the Authority has not received notice from the Trustee or the bondholders seeking to exercise any contractual remedy. The Authority will submit the fiscal year 2017 CAFR and other required information within the 120 day reporting requirement.

(f) Pledged Revenues

The Authority has pledged certain gross revenues to repay the Series 2016A, Series 2009A, and Series 2009B Gross Revenue Transit Bonds, collectively referred to as Transit Bonds. Gross revenues are defined in the official statements of the Transit Bonds as all revenues exclusive of parking revenues, lease-related revenues, capital contributions, and federal operating subsidies, which include the Authority's operating revenues and jurisdiction operating subsidies.

9. Short and Long-Term Liabilities (continued)

(f) Pledged Revenues (continued)

Gross revenues recognized as defined by the Transit Bonds' indentures for the years ended June 30, 2017 and 2016 are as follows (in thousands):

| | <u>2017</u> | <u>2016</u> |
|------------------------|---------------------|---------------------|
| Passenger revenues | \$ 699,640 | \$ 764,368 |
| Other pledged revenues | 62,928 | 57,669 |
| Operating subsidies | 891,548 | 895,973 |
| Total gross revenues | <u>\$ 1,654,116</u> | <u>\$ 1,718,010</u> |

Principal and interest payments on the Transit Bonds totaled for the years ended June 30, 2017 and 2016 are as follows (in thousands):

| | <u>2017</u> | <u>2016</u> |
|--|------------------|------------------|
| Debt service principal and interest: | | |
| Interest | \$ 23,485 | \$ 14,854 |
| Principal | 8,285 | 7,900 |
| Total | <u>\$ 31,770</u> | <u>\$ 22,754</u> |
| Percentage of debt service payment to gross revenue | 1.92% | 1.32% |

The total principal and interest payments outstanding on the Transit Bonds is \$621.4 million and \$653.8 million as of June 30, 2017 and 2016, respectively, and are payable through July 1, 2034.

(g) Interest Expense

Interest expense incurred during the years ended June 30, 2017 and 2016 is as follows (in thousands):

| | <u>2017</u> | <u>2016</u> |
|----------------------------|------------------|------------------|
| Grant anticipation note | \$ - | \$ 208 |
| Lines of credit | 1,423 | 2,681 |
| Bonds | 23,485 | 14,854 |
| Total interest incurred | <u>24,908</u> | <u>17,743</u> |
| Less: capitalized interest | <u>9,282</u> | <u>4,068</u> |
| Total interest expense | <u>\$ 15,626</u> | <u>\$ 13,675</u> |

10. Pension Plans

(a) Description of Pension Plans

The Authority participates in five single employer defined benefit pension plans (collectively referred to as the Plans) covering substantially all of its employees, as shown in the table below.

| <u>Name of Plan</u> | <u>Plan year-end</u> | <u>Covered Employees</u> |
|---|----------------------|---------------------------------------|
| WMATA Retirement Plan (Retirement Plan) | June 30 | Management and non-union employees |
| WMATA Transit Employees' Retirement Plan (Local 689) | June 30 | Full or part-time Local 689 employees |
| WMATA Transit Police Retirement Plan (Transit Police) | December 31 | Transit police officers and officials |
| WMATA Local 922 Retirement Plan (Local 922) | December 31 | Full or part-time Local 922 employees |
| WMATA Local 2 Retirement Plan (Local 2) | June 30 | Full-time Local 2 employees |

Each Plan is governed by a separate Board of Trustees responsible for administering the Plans. Financial statements for each Plan may be obtained by contacting the Plan administrator in writing at Washington Metropolitan Area Transit Authority, HRCB Benefits Branch, 600 Fifth Street, NW, Washington, D.C. 20001, or by calling (202) 962-1076.

The Local 689, Transit Police, Local 922, and Local 2 Plans are governed by the terms of the respective collective bargaining agreements, which are the basis by which benefit terms and contribution requirements are established and amended. Below is a summary of each respective Plan's membership for the years ended June 30, 2017 and 2016:

| <u>Plan membership</u> | <u>Retirement Plan</u> | <u>Local 689</u> | <u>Transit Police</u> | <u>Local 922</u> | <u>Local 2</u> | <u>Total</u> |
|----------------------------------|------------------------|------------------|-----------------------|------------------|----------------|---------------|
| June 30, 2017: | | | | | | |
| Active | 268 | 9,302 | 417 | 432 | 73 | 10,492 |
| Inactive, receiving benefits | 1,191 | 4,610 | 236 | 236 | 305 | 6,578 |
| Inactive, not receiving benefits | 342 | 797 | 91 | 47 | 59 | 1,336 |
| Total membership | <u>1,801</u> | <u>14,709</u> | <u>744</u> | <u>715</u> | <u>437</u> | <u>18,406</u> |

| <u>Plan membership</u> | <u>Retirement Plan</u> | <u>Local 689</u> | <u>Transit Police</u> | <u>Local 922</u> | <u>Local 2</u> | <u>Total</u> |
|----------------------------------|------------------------|------------------|-----------------------|------------------|----------------|---------------|
| June 30, 2016: | | | | | | |
| Active | 295 | 9,244 | 433 | 430 | 89 | 10,491 |
| Inactive, receiving benefits | 1,178 | 4,384 | 227 | 227 | 293 | 6,309 |
| Inactive, not receiving benefits | 348 | 776 | 81 | 44 | 63 | 1,312 |
| Total membership | <u>1,821</u> | <u>14,404</u> | <u>741</u> | <u>701</u> | <u>445</u> | <u>18,112</u> |

10. Pension Plans (continued)

(a) Description of Pension Plans (continued)

Below is a summary of the eligible employees, benefits, and contributions and funding policy for each Plan:

i) Retirement Plan

The Retirement Plan is administered by the Board of Trustees, which is comprised of four members including Plan Counsel. Two members are appointed by management of the Authority, Plan Counsel is hired and one member is elected.

Eligible employees

All full-time regular management and non-union employees hired prior to January 1, 1999, and certain Transit Police Officials who are not covered by any other Authority pension plan, and Special Police Officers represented by Teamsters Local 639 are eligible to participate in the Salaried Personnel Plan.

Benefits

The normal retirement eligibility is age 65 with 5 years of credited service. The annual normal retirement benefit comprises of 1.6% of final average compensation multiplied by the number of years of credited service (including any unused sick leave as credited service for purpose of normal retirement benefit), plus 0.9% of final average compensation in excess of the Social Security breakpoint multiplied by years of credited service (including any unused sick leave as credited service for purpose of normal retirement benefit amount) not in excess of 20 years. Early retirement benefits are available upon reaching age 55 with 10 years of credited service or after the sum of years of service plus attained age is 83 or more. The maximum normal retirement benefit is not to exceed 80% of final average compensation. The Plan provides retired participants annual cost of living increases, permits both early and later retirement, and provides for benefits in the event of death, disability and terminated vested employment. After five years of service, participants are 100% vested.

Contributions and Funding Policy

The Authority is required to contribute pursuant to the Compact an amount equal to the actuarially determined contribution. Authority contributions totaled \$20.3 million and \$19.9 million for the years ended June 30, 2017 and 2016, respectively. Participants are not required to contribute to the Retirement Plan.

ii) Local 689

Local 689 is governed by the Retirement Allowance Committee, which consists of six members. Three members are appointed by management of the Authority and three members are appointed by Local 689.

10. Pension Plans (continued)

(a) Description of Pension Plans (continued)

ii) Local 689 (continued)

Eligible employees

Any regular full-time or part-time Authority employee, who is a member of Union Local 689 of the Amalgamated Transit Union (Local 689), after a 90-day probationary period, is eligible to participate in the Local 689 Plan. The Plan is governed by the terms of the employees' collective bargaining agreement. After ten years of service, participants are 100% vested.

Benefits

The Plan provides for normal retirement, early retirement, disability and preretirement spouse death benefits. Employees are eligible for the normal retirement allowance upon either attainment of age 70; attainment of age 65 and the completion of 10 years of continuous service; upon completion of 27 years of continuous service regardless of age; or after the sum of years of service plus attained age is 83 or more. The normal retirement monthly pension is 1.85% of the highest 4-year average monthly total compensation times the number of years of continuous service up to 27 years, plus 1.95% of average compensation times continuous service in excess of 27 years of service. The minimum benefit is \$600 monthly.

Contributions and Funding Policy

The Authority is required to contribute per the collective bargaining agreement an amount equal to the actuarially determined contribution. Employee and Authority contributions totaled \$22.7 million and \$119.0 million, respectively, for the year ended June 30, 2017. Employee and Authority contributions totaled \$22.1 million and \$127.5 million, respectively, for the year ended June 30, 2016.

iii) Transit Police

The Transit Police Plan is administered by the Board of Trustees, which is comprised of four members. Two members are appointed by management of the Authority and two members are appointed by the Fraternal Order of Police.

Eligible employees

Transit Police Officers and Transit Police Officials of the Authority are eligible to participate in the Transit Police Plan. The Plan provides retired participants annual cost of living increases, permits both early and later retirement, and provides for benefits in the event of death, disability and terminated vested employment disability benefits. After ten years of service, participants are 100% vested.

Benefits

The normal retirement age is upon completing 25 years of credited service, but no later than age 65. The normal retirement benefit is 2.56% of final average earnings multiplied by years of credited service. The resulting benefit, if paid following the participant's 66th birthday, will be reduced by 0.50% of final average of the highest 36 months of earnings for each year of credited service.

10. Pension Plans (continued)

(a) Description of Pension Plans (continued)

iii) Transit Police (continued)

Contributions and Funding Policy

Employees are required to contribute 7.27% of compensation beginning October 1, 2003. The Authority is required to contribute per the collective bargaining agreement an amount equal to the actuarially determined contribution. The Authority may limit the amount of contribution to 17.05% of gross earnings in any plan year and defer any balance. This deferral can be for no more than three consecutive plan years or for no more than four plan years out of any consecutive seven years.

Employee and Authority contributions totaled \$2.4 million and \$10.7 million, respectively, for the year ended June 30, 2017. Employee and Authority contributions totaled \$2.4 million and \$8.7 million, respectively, for the year ended June 30, 2016.

iv) Local 922

The Local 922 Plan is administered by the Board of Trustees, which is comprised of four members. Two members are appointed by management of the Authority, and two members are appointed by the Local 922.

Eligible employees

All regular full-time and part-time employees, who are members of Local 922, after a 90-day probationary period, are eligible to participate in the Local 922 Plan. The Plan is governed by the terms of the employees' collective bargaining agreement. Employees are eligible for the normal pension benefits after attaining age 65 and 10 years of credited service; upon completion of 27 years of credited service regardless of age; or after the sum of years of service plus attained age is 83 or more. After ten years of service, participants are 100% vested.

Benefits

Effective for employees retiring on or after November 1, 2007, the annual retirement benefits are equal to 1.85% of the average compensation for each year (or fraction thereof based on completed months) of service up to 27 years at retirement, plus 1.95% of average compensation for each year (or fraction thereof based on completed months) of service in excess of 27 years at retirement plus 1.0% for years of service prior to May 1, 1973. The minimum benefit is \$175 monthly. The Plan provides retired participants annual cost of living increases, permits early retirement, and provides for benefits in the event of death, disability and terminated employment.

10. Pension Plans (continued)

(a) Description of Pension Plans (continued)

iv) Local 922 (continued)

Contributions and Funding Policy

The Authority is required to contribute per the collective bargaining agreement an amount equal to the actuarially determined contribution. Based upon the collective bargaining agreement, employees contribute 3% of wages for periods beginning November 1, 2015 and 1% of wages for the period November 1, 2014 through October 31, 2015. Employee and Authority contributions totaled \$1.0 million and \$5.4 million, respectively, for the year ended June 30, 2017. Employee and Authority contributions totaled \$0.7 million and \$5.6 million, respectively, for the year ended June 30, 2016.

v) Local 2

The Local 2 Plan is administered by the Board of Trustees, which consists of six members including Plan Counsel. Five members are appointed by management of the Authority, and Plan Counsel is hired by the Local 2 Union.

Eligible employees

All full-time employees covered by the Local 2 bargaining agreement hired prior to January 1, 1999 and who are not covered by any other Authority pension plan are eligible to participate in the Local 2 Plan. The Plan is governed by the Authority's Board of Directors with consideration of both the applicable union agreements and Authority personnel practices. The normal retirement eligibility is age 65 with 5 years of credited service. After five years of service, participants are 100% vested.

Benefits

The annual normal retirement benefit comprises of 1.6% of final average compensation multiplied by years of credited service (including any unused sick leave as credited service for purpose of normal retirement benefit), plus 0.9% of final average compensation in excess of the Social Security breakpoint multiplied by years of credited service (including any unused sick leave as credited service for purpose of normal retirement benefit amount) not in excess of 20 years. Early retirement benefits are available upon reaching age 55 with 10 years of credited service or after the sum of years of service plus attained age is 83 or more. The maximum normal retirement benefit is not to exceed 80% of final average compensation. The Plan provides retired participants annual cost of living increases, permits both early and later retirement, and provides for benefits in the event of death, disability, and terminated vested employment.

Contributions and Funding Policy

The Authority is required to contribute per the collective bargaining agreement an amount equal to the actuarially determined contribution. Authority contributions totaled \$4.7 million and \$4.8 million for the years ended June 30, 2017 and 2016, respectively. Participants are not required to contribute to the Local 2 Plan.

10. Pension Plans (continued)

(b) Net Pension Liability

The Authority's net pension liabilities for each of the Plans were measured as of their fiscal year end dates, which were determined using actuarial valuations as of each Plan's fiscal year end.

The total pension liabilities in the actuarial valuations were determined using the following actuarial assumptions as of June 30, 2017 and 2016.

| | June 30, 2017 | | | | |
|---|--------------------|--------------|-------------------|--------------|--------------|
| | Retirement Plan | Local 689 | Transit Police | Local 922 | Local 2 |
| Measurement date | 6/30/2016 | 6/30/2016 | 12/31/2016 | 12/31/2016 | 6/30/2016 |
| Inflation | 2.5% | 2.5% | 2.5% | 3.0% | 2.5% |
| Salary and wage increases | 3.0% to 6.3% | 3.0% to 3.5% | 3.0% to 7.0% | 4.0% to 4.5% | 3.0% to 6.3% |
| Long-term rate of return, net of expense, including price inflation | 7.0% | 7.9% | 7.5% | 7.0% | 7.5% |

| | June 30, 2016 | | | | |
|---|--------------------|--------------|-------------------|--------------|--------------|
| | Retirement Plan | Local 689 | Transit Police | Local 922 | Local 2 |
| Measurement date | 6/30/2015 | 6/30/2015 | 12/31/2015 | 12/31/2015 | 6/30/2015 |
| Inflation | 2.5% | 2.5% | 2.5% | 3.0% | 2.5% |
| Salary and wage increases | 3.0% to 6.3% | 3.0% to 3.5% | 3.0% to 7.0% | 4.0% to 4.5% | 3.0% to 6.3% |
| Long-term rate of return, net of expense, including price inflation | 7.0% | 7.9% | 7.5% | 7.0% | 7.5% |

10. Pension Plans (continued)

(b) Net Pension Liability (continued)

i) Retirement Plan

The RP-2000 Fully Generational Combined Mortality table (Projected w/Scale AA) was used for the mortality assumptions for the fiscal years ended June 30, 2016 and 2015.

The actuarial assumptions used in the June 30, 2016 and 2015 valuations were based on the results of an actuarial experience study conducted for the period of 2009 thru 2014.

The long term expected rate of return of pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2016 and 2015 are summarized in the following table:

| Asset class | Target allocation | | Long-term expected real rate of return | |
|-------------------------|-------------------|-------|--|-------|
| | 2016 | 2015 | 2016 | 2015 |
| U.S. core fixed income | 40.0% | 34.0% | 3.9% | 4.4% |
| U.S. equity large cap | 35.0% | 37.0% | 7.5% | 8.9% |
| U.S. equity small cap | 15.0% | 18.0% | 7.8% | 12.1% |
| International | 10.0% | 0.0% | 8.0% | 0.0% |
| Developed world ex U.S. | 0.0% | 11.0% | 0.0% | 10.4% |

The discount rate used to measure the total pension liability for June 30, 2016 and 2015 was 7.0%. The projection of cash flows used to determine the discount rate assumed that the employer contributions would be made at rates equal to the actuarially determined contribution rates. Based on this assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

10. Pension Plans (continued)

(b) Net Pension Liability (continued)

ii) Local 689

For the fiscal years ended June 30, 2016 and 2015, the RP-2000 male and female distinct rates projected to 2016 and 2015, respectively were used for the mortality assumptions.

The actuarial assumptions used in the June 30, 2016 and 2015 valuation were based on the results of an actuarial experience study conducted for the five years ending December 31, 2013.

The long term expected rate of return of pension plan investments was determined based on a weighted average of the expected real rates of return and the Plan's target asset allocation and by adding expected inflation (2.5%).

Best estimates of arithmetic real rates of return for each major asset class included in the pension Plan's target asset allocation as of June 30, 2016 and 2015 are summarized in the following table:

| Asset class | Target allocation | Long-term expected real rate of return | |
|-----------------------------------|-------------------|--|------|
| | | 2016 | 2015 |
| Large cap equities | 38.0% | 6.4% | 5.5% |
| Mid cap equities | 5.0% | 7.0% | 6.1% |
| Small cap equities | 5.0% | 7.5% | 6.7% |
| Non-U.S. developed equities | 10.0% | 5.0% | 5.6% |
| Fixed income | 15.0% | 1.9% | 1.2% |
| Global tactical assets allocation | 10.0% | 4.5% | 4.0% |
| Real estate | 7.0% | 5.0% | 4.6% |
| Fund of hedge funds | 5.0% | 3.0% | 4.0% |
| Private equity | 5.0% | 9.1% | 8.9% |

The discount rate used to measure the total pension liability for June 30, 2016 and 2015 was 7.9%. The projection of cash flows used to determine the discount rate assumed that participant contributions would continue to be made at the rates set forth in the most recent collective bargaining agreement.

Based on that assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

10. Pension Plans (continued)

(b) Net Pension Liability (continued)

iii) Transit Police

For the year ended December 31, 2016 the RP-2014 Combined Healthy Blue Collar Mortality table with generational projection by Scale MP-2015 was used for the mortality assumptions. A ten year set forward was used for post disability mortality. For the year ended December 31, 2015, the RP-2000 Combined Healthy Blue Collar Mortality table with generational projection by Scale AA was used for the mortality assumptions. A ten year set forward was used for post disability mortality.

The actuarial assumptions used in the December 31, 2016 and 2015 valuations were based on the results of an actuarial experience study conducted for the five years ending January 1, 2015.

The long term expected rate of return of pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, and by adding expected inflation (2.5%).

Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation is the same as of December 31, 2016 and 2015 and are summarized in the following table:

| <u>Asset Class</u> | <u>Target allocation</u> | <u>Long-term expected real rate of return</u> |
|---------------------------------|--------------------------|---|
| Equity (U.S. and International) | 50.0% – 70.0% | |
| U.S. | | 6.7% |
| International | | 7.2% |
| Fixed income | 25.0% – 45.0% | |
| Core | | 2.3% |
| International | | 2.4% |
| Real estate | 0% – 10.0% | 4.5% |

The discount rate used to measure the total pension liability for December 31, 2016 and 2015 was 7.5%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that the Authority contributions will be made according to the funding method used in the annual valuation. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

10. Pension Plans (continued)

(b) Net Pension Liability (continued)

iv) Local 922

The RP-2000 Healthy Combined Mortality table with Blue Collar Adjustment, projected fully generational with Scale AA, was used for the mortality assumptions for the years ended December 31, 2016 and 2015.

The actuarial assumptions used in the December 31, 2016 and 2015 valuations were based on the results of an actuarial experience study conducted for the eight years ending December 31, 2014.

The long term expected rate of return of pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of December 31, 2016 and 2015 are summarized in the following table:

| Asset class | Target allocation | Long-term expected real rate of return | |
|-----------------------------|-------------------|--|------|
| | | 2016 | 2015 |
| Large cap equities | 29.0% | 5.8% | 7.5% |
| Small/mid cap equities | 6.0% | 6.0% | 7.8% |
| International equities | 12.0% | 7.3% | 8.0% |
| Core bonds | 23.0% | 2.7% | 4.0% |
| Global bonds | 5.0% | 8.5% | 2.3% |
| Real estate and hedge funds | 5.0% | 6.0% | 6.5% |
| Global asset allocations | 20.0% | 5.8% | 6.9% |

The discount rate used to measure the total pension liability for December 31, 2016 and 2015 was 7.0%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Authority contributions will be made according to the valuation method. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

10. Pension Plans (continued)

(b) Net Pension Liability (continued)

v) Local 2

The RP-2000 Fully Generational Combined Mortality Table (Projected w/Scale AA) without collar adjustment was used for the mortality assumptions for the fiscal years ended June 30, 2016 and 2015.

The actuarial assumptions used in the June 30, 2016 and 2015 valuations were based on the results of an actuarial experience study conducted for the six years ending June 30, 2014.

The long term expected rate of return of pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of June 30, 2016 and 2015 are summarized in the following table:

| Asset class | Target allocation | | Long-term expected real rate of return | |
|-------------------------------|-------------------|---------------|--|---------------|
| | 2016 | 2015 | 2016 | 2015 |
| U.S. core fixed income | 35.0% | 29.0% | 3.9% | 4.5% |
| U.S. equity large cap | 12.5% - 20.0% | 36.0% | 7.5% | 8.9% |
| U.S. equity mid cap/small cap | 5.0% - 20.0% | 14.0% - 17.0% | 7.8% | 10.9% - 12.1% |
| International | 5.0% | 0.0% | 8.0% | 0.0% |
| Developed world ex U.S. | 0.0% | 4.0% | 0.0% | 10.4% |

The discount rate used to measure the total pension liability for June 30, 2016 and 2015 was 7.5%. The projection of cash flows used to determine the discount rate assumed that the employer contributions would be made at rates equal to the actuarially determined contribution rates. Based on this assumption, Local 2's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

10. Pension Plans (continued)**(b) Net Pension Liability (continued)**

Changes in the Authority's net pension liabilities for the fiscal years ended June 30, 2017 and 2016, based on each Plan's respective measurement dates, are as follows (in thousands):

Retirement Plan

| | 2017 | | |
|---|--------------------------------|------------------------------------|------------------------------|

| | June 30, 2016 | |
|---|--------------------------------------|-------------------------------------|
| | Deferred Outflows of Resources | Deferred Inflows of Resources |
| Retirement Plan: | | |
| Differences between projected and actual investment earnings | \$ - | \$ 10,178 |
| Contributions made after the measurement date | 19,877 | - |
| Subtotal | <u>19,877</u> | <u>10,178</u> |
| Local 689: | | |
| Differences between projected and actual investment earnings | 59,210 | 138,706 |
| Differences between expected and actual experience | 49,026 | 26,403 |
| Changes in assumptions | - | 11,800 |
| Contributions made after the measurement date | 127,516 | - |
| Subtotal | <u>235,752</u> | <u>176,909</u> |
| Transit Police: | | |
| Differences between projected and actual investment earnings | 15,477 | 98 |
| Differences between expected and actual experience | - | 3,485 |
| Contributions made after the measurement date | 4,374 | - |
| Subtotal | <u>19,851</u> | <u>3,583</u> |
| Local 922: | | |
| Differences between projected and actual investment earnings | 14,530 | - |
| Differences between expected and actual experience | 170 | - |
| Changes of assumptions | 1,854 | - |
| Contributions made after the measurement date | 2,792 | - |
| Subtotal | <u>19,346</u> | <u>-</u> |
| Local 2: | | |
| Differences between projected and actual investment earnings | - | 4,813 |
| Contributions made after the measurement date | 4,823 | - |
| Subtotal | <u>4,823</u> | <u>4,813</u> |
| Total deferred outflows of resources and inflows of resources | | |
| Differences between projected and actual investment earnings | 89,217 | 153,795 |
| Differences between expected and actual experience | 49,196 | 29,888 |
| Changes in assumptions | 1,854 | 11,800 |
| Contributions made after the measurement date | 159,382 | - |
| Total | <u>\$ 299,649</u> | <u>\$ 195,483</u> |

Deferred outflows of resources from contributions made after the measurement date for each of the Plans reflected in the above tables as of June 30, 2017 and 2016 will be recognized as a reduction in the net pension liability in the fiscal years ending June 30, 2018 and June 30, 2017, respectively.

10. Pension Plans (continued)**(d) Pension Deferred Outflows and Inflows of Resources (continued)**

Amounts reported as deferred outflows and inflows of resources related to pensions for the respective Plans (exclusive of the deferred outflows of resources from contributions made after the measurement date) will be recognized in pension expense based on each respective Plan's measurement dates as follows (in thousands):

| As of June 30, | Deferred Outflows (Inflows) | | | | | |
|-------------------|-----------------------------|-------------------|-------------------|------------------|-----------------|-------------------|
| | Retirement Plan | Local 689 | Transit Police | Local 922 | Local 2 | Total |
| 2018 | \$ 531 | \$ 13,629 | \$ 2,870 | \$ 4,595 | \$ (171) | \$ 21,454 |
| 2019 | 531 | 13,628 | 2,869 | 4,595 | (171) | 21,452 |

| Local 2 | 7.50% | 43,871 | 27,228 | 12,962 |
| Total net pension liability | | <u>\$ 1,482,941</u> | <u>\$ 907,602</u> | <u>\$ 453,763</u> |

(f) Deferred Compensation

The Authority offers a deferred compensation plan for all active employees under the terms of the Internal Revenue Section 457(g). Under the 457 plan, employees are permitted to defer up to 100% of salary, on a pretax basis, not to exceed limits prescribed in the Internal Revenue Code. Deferred compensation is not available to employees until termination, retirement, death, or an unforeseeable emergency. The Authority does not match employees' contributions to the 457 plan.

(g) Defined Contribution Retirement Plan

The Authority offers a defined contribution retirement plan, Washington Metropolitan Area Transit Authority Defined Contribution Retirement Plan and Trust, for salaried employees under the terms of the Internal Revenue Code 401(a). The 401(a) plan, adopted on December 10, 1998 for employees hired on or after January 1, 1999, provides for the Authority to contribute an amount equivalent to four percent of the employee's base salary into a trust. The employee is not required to contribute into the 401(a) plan; however, if the employee contributes up to three percent of base salary to the 457 Deferred Compensation plan, the Authority will contribute an additional amount of up to three percent to the 401(a) plan to equal the employee's contribution to the 457 plan. Employees are 100% vested after three years of service. A year of vesting is 1,000 hours of service in a calendar year. There is no interim vesting. Accrued 401(a) benefits will be paid to the employee (or rolled over) upon leaving Authority employment any time after full vesting. The provisions of the plan can be amended by the Board. This right to amend the plan is subject to the condition that all of the plan assets be used exclusively for the benefit of the participants, retired participants and their beneficiaries under the plan.

The Authority contributed \$10.5 million and \$9.8 million for the years ended June 30, 2017 and 2016, respectively.

11. Other Postemployment Benefits

(a) Plan Descriptions

The Authority contributes to four single employer defined benefit healthcare plans: Local 689, Local 2, Transit Police and Nonrepresented. Transit Police and Nonrepresented provide healthcare, prescription drug and life insurance benefits to retirees and their dependents. Local 2 and Local 689 provides healthcare, prescription drug and life insurance benefits to employees hired before January 1, 2010.

The Local 689, Local 2, and Transit Police plans are governed by the terms of their respective collective bargaining agreements. The Nonrepresented plan is governed by the Authority's Board.

(b) Funding Policy and Annual OPEB Cost

For the Local 689, Local 2, and Transit Police plans, contribution requirements of the plan members and the Authority are established and may be amended through negotiation between the Authority and the unions. For the Nonrepresented plan, the Board established and may amend the contribution requirements for the plan members and the Authority.

The Authority's OPEB cost for each plan is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

11. Other Postemployment Benefits (continued)**(b) Funding Policy and Annual OPEB Cost (continued)**

The Authority's annual OPEB cost for the years ended June 30, 2017 and 2016, and the related information are as follows (in thousands):

| Increase in net OPEB obligation | 30,395 | 5,057 | 3,790 | 17,890 | 57,132 |
| Net OPEB obligation – July 1, 2015 | 356,984 | 64,198 | 39,402 | 152,583 | 613,167 |
| Net OPEB obligation – June 30, 2016 | <u>\$ 387,379</u> | <u>\$ 69,255</u> | <u>\$ 43,192</u> | <u>\$ 170,473</u> | <u>\$ 670,299</u> |

11. Other Postemployment Benefits (continued)

(b) Funding Policy and Annual OPEB Cost (continued)

The Authority's annual OPEB cost, the percentage of annual OPEB cost contributed to the plans, and the net OPEB obligations for fiscal years 2017, 2016 and 2015 for each of the plans are as follows (in thousands):

| Plan | Fiscal year ended | Annual OPEB cost | Percentage of OPEB cost contributed |
|-----------------|--------------------------|-------------------------|--|
| Local 689 | June 30, 2017 | \$ 62,286 | 47.5% |
| | June 30, 2016 | \$ 60,126 | 49.4% |
| | June 30, 2015 | \$ 53,582 | 52.6% |
| Local 2 | June 30, 2017 | \$ 9,718 | 35.9% |
| | June 30, 2016 | \$ 9,357 | 45.1% |
| | June 30, 2015 | \$ 9,399 | 34.9% |
| Transit Police | June 30, 2017 | \$ 6,990 | 66.3% |
| | June 30, 2016 | \$ 6,716 | 43.6% |
| | June 30, 2015 | \$ 6,801 | 44.4% |
| Non-Represented | June 30, 2017 | \$ 33,638 | 33.6% |
| | June 30, 2016 | \$ 32,270 | 44.6% |
| | June 30, 2015 | \$ 30,243 | 37.0% |

(c) Funded Status and Funding Progress

The funded status of the plans, as of June 30, 2017 and 2016, are as follows (in thousands):

| | 2017 | | | | Total |
|--|--------------|------------|----------------|-----------------|--------------|
| | Local 689 | Local 2 | Transit Police | Non-Represented | |
| Actuarial accrued liability (a) | \$ 1,055,542 | \$ 158,476 | \$ 109,646 | \$ 499,116 | \$ 1,822,780 |
| Actuarial value of plan assets (b) | - | - | - | - | - |
| Unfunded actuarial accrued Liability (funding excess) (a)-(b) | \$ 1,055,542 | \$ 158,476 | \$ 109,646 | \$ 499,116 | \$ 1,822,780 |
| Funded ratio (b)/(a) | 0.0% | 0.0% | 0.0% | 0.0% | 0.0% |
| Covered payroll (c) | N/A | N/A | N/A | N/A | \$ 627,000 |
| Unfunded actuarial accrued liability (funding excess) as a percentage of covered payroll ((a)-(b))/(c) | N/A | N/A | N/A | N/A | 290.7% |

11. Other Postemployment Benefits (continued)**(c) Funded Status and Funding Progress (continued)**

| | 2016 | | | | |
|---|--------------|------------|-------------------|---------------------|--------------|
| | Local 689 | Local 2 | Transit Police | Non- Represented | Total |
| Actuarial accrued liability (a) | \$ 1,026,115 | \$ 153,581 | \$ 105,957 | \$ 481,661 | \$ 1,767,314 |
| Actuarial value of plan assets (b) | - | - | - | - | - |
| Unfunded actuarial accrued Liability (funding excess) (a)-(b) | \$ 1,026,115 | \$ 153,581 | \$ 105,957 | \$ 481,661 | \$ 1,767,314 |
| Funded ratio (b)/(a) | 0.0% | 0.0% | 0.0% | 0.0% | 0.0% |
| Covered payroll (c) | N/A | N/A | N/A | N/A | \$ 627,000 |
| Unfunded actuarial accrued liability (funding excess) as a percentage of covered payroll (a)-(b)/(c) | N/A | N/A | N/A | N/A | 281.9% |

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the plan and annual required contributions of the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the basic financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the financial accrued liabilities for benefits.

(d) Actuarial Methods and Assumptions

Projections of benefits are based on the substantive plan (the plan as understood by employer and plan members) and include the types of benefits in force at the valuation date and pattern of sharing benefits costs between the Authority and plan members to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

11. Other Postemployment Benefits (continued)

(d) Actuarial Methods and Assumptions (continued)

The Authority's significant methods and assumptions are as follows:

| | Local 689 | Local 2 | Transit Police | Non- Represented |
|-------------------------------|-------------------------------|-------------------------------|-------------------------------|-------------------------------|
| Actuarial valuation date | July 1, 2015 | July 1, 2015 | July 1, 2015 | July 1, 2015 |
| Actuarial cost method | Projected unit credit | Projected unit credit | Projected unit credit | Projected unit credit |
| Amortization method | Level percentage of pay | Level percentage of pay | Level percentage of pay | Level percentage of pay |
| Remaining amortization period | Open-30 years | Open-30 years | Open-30 years | Open-30 years |
| Asset valuation method | N/A | N/A | N/A | N/A |
| Discount rate | 4.0% | 4.0% | 4.0% | 4.0% |
| Projected salary increases | 4.5% | 4.5% | 4.5% | 4.5% |
| Inflation rate | 2.1% | 2.1% | 2.1% | 2.1% |
| Healthcare cost trend rate: | | | | |
| Pre-65 Years old | 7.6% | 7.6% | 7.6% | 7.6% |
| 65 Years and older | 9.0% | 9.0% | 9.0% | 9.0% |

(e) Defined Contribution Plan

The Authority contributes to the 922/Employees Health Trust (the Plan), which is a cost sharing multiple employer defined contribution healthcare plan that provides healthcare, prescription drug, and life insurance benefits to retirees and their dependents who are members of the Local 922 Union. The Plan is administered by the Local 922 Union, and is governed by the terms of the Local 922 Collective Bargaining Agreement. Plan provisions may be amended through negotiation between the Authority and the Local 922 Union. Retiree health benefits are eliminated for Local 922 Union employees hired on or after January 1, 2012.

The Plan requires the Authority to contribute \$800 each month for each Local 922 Union employee and each Local 922 Union retiree enrolled in the Plan under the age of 65. The Plan determines the amount of employee and retiree contributions necessary to fund the remaining cost of the benefits. The Authority's contributions were \$4.4 million and \$4.3 million for the fiscal years ended June 30, 2017 and 2016, respectively. Employee and retiree contributions were \$1.6 million and \$1.6 million for the fiscal years ended June 30, 2017 and 2016, respectively.

12. Commitments and Contingencies

(a) Litigation and Claims

The Authority is exposed to liability for third party bodily injury and property damage; injury to its employees arising out of and in the course of their employment; physical damage to and loss of its property; and liability for financial loss as a result of decisions and judgments made by the Authority. The Authority carries various types of insurance coverage with varying limits through commercial insurers for these risks, subject to the following self-insured retentions (SIRs) and deductibles. The Authority self-insures for the following:

- 1) Third party bodily injury and property damage liability claims up to \$5.0 million per occurrence;
- 2) Workers compensation claims up to \$2.5 million per occurrence;
- 3) Employment practices liability claims up to \$1.0 million per occurrence;
- 4) First party (the Authority) property and business interruption loss up to \$10.0 million for derailment, track and roadbed and \$5.0 million for stations and tunnels; and up to \$1.0 million for all other loss or damage;
- 5) Directors and Officers, Employment Practices Liability, Fiduciary Liability, Crime (including Employee Dishonesty), Pollution Liability, and Privacy/Network Security Liability claims up to \$1.0 million per occurrence; and
- 6) Medical Facilities Liability claims up to \$0.3 million per occurrence.

i) Open Liability Claims \$1.0 Million and Greater

Third Party Claims

As of June 30, 2017 and 2016, there were seven and four liability claims, respectively, with open reserves greater than \$1.0 million falling within the \$5.0 million SIR.

Workers' Compensation

As of June 30, 2017 and 2016, there were 18 and nine, respectively, workers' compensation claims with open reserves greater than \$1.0 million, with an aggregate total of \$26.2 million and \$11.8 million, respectively. Workers' compensation claims have a longer tail than liability claims, with the expected payout period of these nine claims ranging over the next several decades.

Directors and Officers/Employment Practices Liability

As of June 30, 2017, the Authority had one claim pending with expenses exceeding the \$1.0 million SIR.

12. Commitments and Contingencies (continued)

(a) Litigation and Claims (continued)

Loss occurrences are reported to the commercial insurers when it is determined that the loss is covered by insurance and when the loss results in severe bodily injury (e.g., death, dismemberment, brain damage, paralysis, etc.) or when the loss is valued at 50% or more of the SIR. When a third party liability or workers compensation claim is either made against the Authority or when there is sufficient reason to believe that the Authority may be liable for the loss, a dollar amount for estimated losses is reserved for that claim. Estimated loss values are adjusted as the claims develop. The reserve for estimated losses is evaluated by an independent actuary who determines the total liability to be included in the Statements of Net Position. Claim settlements have not exceeded insurance coverage for each of the three most recent years.

The actuarially developed liability for the years ended June 30, 2017 and 2016 are as follows (in thousands):

| | <u>2017</u> | <u>2016</u> |
|---|-------------------|-------------------|
| Estimated net present value of the liability for litigation and claims, beginning of year | \$ 180,266 | \$ 157,849 |
| Incurred new claims | 25,084 | 35,626 |
| Changes in estimate for claims of prior periods | (5,617) | 19,428 |
| Payments on claims | <u>(34,695)</u> | <u>(32,637)</u> |
| Estimated net present value of the liability for litigation and claims, end of year | <u>\$ 165,038</u> | <u>\$ 180,266</u> |
| Due within one year | <u>\$ 47,522</u> | <u>\$ 44,893</u> |

The Authority is currently a party to two contractor claims that, if supported by an adverse ruling, could exceed \$9.0 million.

(b) Operating Leases

The Authority has entered into various operating leases for office space within the District of Columbia, State of Maryland and Commonwealth of Virginia. The terms of the various leases have a time span ranging from four to twenty years, with various option years and escalating increases over the lease periods.

Additionally, the Authority leases space within the District of Columbia, Maryland and Virginia for various communications and testing equipment used throughout the Metro system.

Lease payments for years ended June 30, 2017 and 2016 were \$4.5 million and \$5.1 million, respectively.

12. Commitments and Contingencies (continued)

(b) Operating Leases (continued)

The Authority's minimum future lease payments for noncancelable operating leases, as of June 30, 2017 are as follows (in thousands):

| Fiscal year: | <u>Total</u> |
|--------------|------------------|
| 2018 | \$ 3,727 |
| 2019 | 3,583 |
| 2020 | 2,425 |
| 2021 | 1,941 |
| 2022 | 1,405 |
| 2023–2025 | 1,014 |
| | <u>\$ 14,095</u> |

(c) Hedging Derivative Instrument

The Authority enters into master commodity swap agreements or contracts as a hedge against the price volatility of diesel fuel. The agreements allow the Authority to manage its diesel fuel expense, limit exposure to price volatility and improve budget stability. In fiscal years 2017 and 2016, the Authority maintained diesel fuel swap agreements (hedging derivative instruments).

Payment between the swap parties is the difference between the swap price per gallon and the unweighted arithmetic mean of the daily settlement prices for Ultra Low Sulfur Diesel – New York Harbor (NYMEX) closing price of the first nearby month.

The fair value of the swaps is estimated by a mathematical approximation of the market, derived from proprietary models as of a given date, and based on certain assumptions regarding past, present, and future market conditions, as well as certain financial information. The fair values for the swap agreements are reported as either deferred outflows of resources or deferred inflows of resources, as applicable, on the Statements of Net Position.

The following table shows the terms and a summary of the fair values of the diesel swap agreements as of June 30, 2017 and 2016:

| | <u>Per calculation effective date</u> | <u>Period maturity date</u> | <u>Monthly notional gallons</u> | <u>Annual notional gallons</u> | <u>Fair value (in thousands)</u> |
|---------------|---|-------------------------------------|---|--|--------------------------------------|
| June 30, 2017 | July 1, 2018 | June 30, 2018 | 538,421 - 730,770 | 7,547,057 | \$ (1,169) |
| June 30, 2016 | July 1, 2017 | June 30, 2017 | 654,000 | 7,848,000 | \$ 1,629 |

The Authority is exposed to credit risk when swap fair values are negative. To mitigate the credit risk, the Authority entered into swap agreements with counterparties with long term investment grade ratings by Standard and Poor's, Moody's, and Fitch.

12. Commitments and Contingencies (continued)

(c) Hedging Derivative Instrument (continued)

The Authority or the counterparty may terminate the swap if the other party fails to perform under the terms of the contract. In addition, if at the time of the termination the swap has negative fair value, the Authority would be liable to the counterparty for a payment equal to the fair value.

(d) Labor Contracts

During fiscal year 2017, 82.1% of the Authority's labor force was covered by five labor contracts. As of June 30, 2017, four of these contracts, which represent 66.7% of the labor force have expired and currently are either in arbitration or in negotiation.

(e) Construction and Capital Commitments

Construction and capital improvement costs are funded by Federal grants, jurisdictional matching funds, third party agreements, and debt. As of June 30, 2017 and 2016, respectively, the Authority had committed to expend \$47.1 million and \$183.7 million on future construction, capital improvement and other miscellaneous projects.

13. Tax Advantage Lease Agreements

(a) Historical Information

During fiscal year 1999, the Authority entered into 13 contracts to lease the Authority's interest in 680 railcars and simultaneously subleased the railcars back. At settlement, these railcars had a fair value of \$1.2 billion and a net book value of \$226.3 million. During fiscal year 2003, the Authority entered into two additional contracts to sublease 78 railcars valued at \$194.1 million and had a net book value of \$66.8 million.

Trusts were created coincident to these transactions to serve as the lessee/sublessor. Under the sublease agreements, the Authority retains the right to use the railcars and is responsible for their continued maintenance and insurance. The Authority's sublease arrangements have been recorded at present value of the future lease payments and has been recognized on the Statements of Net Position as obligations under tax advantage lease agreements.

As part of the headlease agreements, the Authority received prepayments equivalent to the net present value of the headlease obligations. The Authority transferred a portion of these proceeds to third party equity payment undertakers (EPU's) in accordance with the terms of contractual obligations known as debt and equity payment undertaking agreements. These agreements constitute commitments by the EPU's to pay the Authority's sublease and buy-out options under the terms of the subleases. The EPU's performance under the agreement is guaranteed by their parent company. As the debt and equity payment undertaking agreements have been structured to meet all future obligations under the sublease, the Authority has recorded the amounts held by the EPU's as a prefunded tax advantage lease defeasance contract on the Statements of Net Position.

13. Tax Advantage Lease Agreements (continued)

(b) Future Minimum Lease Requirements

The obligation under tax advantage lease agreements and the prefunded tax advantage lease commitment are adjusted annually to reflect the change in the net present value of the related sublease and buy-out options.

The following table sets forth the aggregate future minimum payment amounts due under the sublease agreements as of June 30, 2017 (in thousands):

| | <u>Total</u> |
|---|-------------------|
| Fiscal year: | |
| 2018 | \$ 85,072 |
| 2019 | 13,106 |
| 2020 | 13,106 |
| 2021 | 13,106 |
| 2022 | 4,984 |
| 2023–2027 | 17,142 |
| 2028–2032 | 26,669 |
| 2033–2034 | 15,803 |
| Total future minimum payments | <u>188,988</u> |
| Less imputed interest | <u>36,907</u> |
| Present value of minimum lease payments | <u>\$ 152,081</u> |

The deferred gain on the tax advantage lease (i.e., excess of the prepayments received over the prepayment paid to the EPU's) recorded as a deferred inflow of resources on the Statements of Net Position, will be recognized by the Authority over the life of the lease.

(c) Additional Leasing Disclosures

The tax advantage lease agreements allow the equity investors to replace the EPU's in the event that their financial ratings are downgraded below a specified level. In the event a suitable replacement or other mutually acceptable solution cannot be reached, accelerated payment of the liability could be requested. Due to events in the financial markets, certain specified downgrades had occurred for all lease agreements. To date, the Authority has terminated 14 of the original 16 lease agreements (one of which occurred during the fiscal year ended June 30, 2017, as described below).

On June 13, 2017, the Authority entered into an agreement to terminate one of the three remaining lease agreements. In accordance with the provisions of the termination agreement, the Authority received proceeds totaling approximately \$0.9 million from the EPU, and paid legal fees totaling \$7.3 thousand, which released the Authority from any further liability. The Authority removed approximately \$92.5 million of assets restricted for the prefunded tax advantage leases and approximately \$92.5 million of obligations under tax advantage leases. The Authority recognized a gain totaling approximately \$4.9 million, which was recorded as a capital contribution.

13. Tax Advantage Lease Agreements (continued)

(c) Additional Leasing Disclosures (continued)

Of the two remaining leases, two equity investors waived the Authority's obligation to replace the defeasance provider and the one remaining equity investor has granted an extension, with an approved extension date to June 30, 2018. The remaining period of these lease agreements ranges from approximately four to 16 years.

It is currently unknown what the cost of the resolutions to any future equity investor's requests will be to the Authority, and as such, no liability has been recognized.

14. Subsequent Events

(a) Issuance of Series 2017A Refunding Bonds

On July 12, 2017, the Authority issued the Washington Metropolitan Area Transit Authority Gross Revenue Transit Refunding Bonds Series 2017A-1 totaling \$148.5 million, and Series 2017A-2 totaling \$48.9 million (collectively referred to as the Series 2017A Refunding Bonds).

The Series 2017A-1 Bonds were issued to refund a portion of the Series 2009A Gross Revenue Transit Bonds. Proceeds from the sale of the 2017A-1 bonds were placed into an irrevocable trust that is used to service the future debt requirements of the old debt. The difference in cash flows between the old debt and the new debt was \$28.1 million, which resulted in an economic gain totaling \$23.5 million.

The Series 2017A-2 bonds were issued as a crossover refunding of the Series 2009B bonds, which will not be legally defeased until July 1, 2019. Proceeds from the sale of the 2017A-2 bonds were placed in a crossover escrow fund to be invested in certain authorized investments. Such investments will be structured to pay the price of the Series 2009B Bonds when called on July 1, 2019 (the crossover date) and the interest coming due on the principal amount of the 2017A-2 bonds on the crossover date.

The Series 2017A Refunding Bonds will be repaid with the gross revenues of the Authority, and were issued with an average interest rate of 5.00%, payable semi-annually on January 1, and July 1 each year. Principal payments are due annually from July 1, 2020 through July 1, 2034. The uninsured ratings of the bonds were AA- from Standard and Poor's and AA- from Fitch as of July 12, 2017.

(b) Issuance of Series 2017B Bonds

On August 17, 2017, the Authority issued the Washington Metropolitan Area Transit Authority Gross Revenue Transit Bonds Series 2017B totaling \$496.5 million.

The Series 2017B Bonds were issued primarily to finance capital costs. The uninsured ratings of the bonds were AA- from Standard and Poor's and AA- from Fitch as of August 17, 2017.

¹ The Actuarial Accrued Liability is based on the census as of July 1, 2015 and on updated actuarial assumptions.

² The Actuarial Accrued Liability is based on the census as of July 1, 2013 and on updated actuarial assumptions.

Notes to the Required Supplementary Information

1. Schedule of Changes in the Net Pension Liability

The changes in the net pension liability for years prior to the fiscal years ending June 30, 2015 were not available and accordingly, were not included in the schedule.

2. Schedule of Employer Contributions

Following are the significant assumptions used to determine the actuarially required contributions for each defined benefit single employer pension plan.

WMATA Retirement Plan:

| Fiscal Year | Valuation Date | Actuarial Cost Method | Asset Valuation Method | Amortization | | Assumed Rate of Return | Inflation Rate | Salary Increases |
|-------------|----------------|-----------------------|------------------------|--------------|---------------|------------------------|----------------|------------------|
| | | | | Method | Period | | | |
| 2017 | 7/1/2016 | Entry age | Smoothed market | Level dollar | 14 years open | 7.00% | 2.50% | 3.00% to 6.30% |
| 2016 | 7/1/2015 | Entry age | Smoothed market | Level dollar | 14 years open | 7.00% | 2.50% | 3.00% to 6.30% |
| 2015 | 7/1/2014 | Entry age | Smoothed market | Level dollar | 15 years open | 8.00% | 2.50% | 3.50% to 8.00% |
| 2014 | 7/1/2013 | Entry age | Smoothed market | Level dollar | 15 years open | 8.00% | 2.50% | 3.50% to 8.00% |
| 2013 | 7/1/2012 | Entry age | Smoothed market | Level dollar | 15 years open | 8.00% | 2.50% | 3.50% to 8.00% |
| 2012 | 7/1/2011 | Entry age | Smoothed market | Level dollar | 15 years open | 8.00% | 2.50% | 3.50% to 8.00% |
| 2011 | 7/1/2010 | Entry age | Smoothed market | Level dollar | 15 years open | 8.00% | 2.50% | 3.50% to 8.00% |
| 2010 | 7/1/2009 | Entry age | Smoothed market | Level dollar | 15 years open | 8.00% | 2.50% | 3.50% to 8.00% |
| 2009 | 7/1/2008 | Entry age | Smoothed market | Level dollar | 15 years open | 8.00% | 2.50% | 3.50% to 8.00% |
| 2008 | 7/1/2007 | Entry age | Smoothed market | Level dollar | 15 years open | 8.00% | 2.50% | 3.50% to 8.00% |

The mortality table used for all fiscal years was the RP-2000 Fully Generational Combined Mortality table (Projected w/Scale AA).

2. Schedule of Employer Contributions (continued)**Local 689 Plan:**

| Fiscal Year | Valuation Date | Actuarial Cost Method | Asset Valuation Method | Amortization | | Assumed Rate of Return | Inflation Rate | Salary Increases |
|-------------|----------------|-----------------------|------------------------|-----------------------------|----------|------------------------|----------------|------------------|
| | | | | Method | Period | | | |
| 2017 | 1/1/2016 | Aggregate Cost | Smoothed market | Level dollar | 30 years | 7.85% | 2.50% | 3.00% to 3.50% |
| 2016 | 1/1/2015 | Aggregate Cost | Smoothed market | Level dollar | 30 years | 7.85% | 2.50% | 3.00% to 3.50% |
| 2015 | 1/1/2014 | Aggregate Cost | Smoothed market | Level percentage of payroll | 30 years | 7.85% | 3.00% | 3.50% |
| 2014 | 1/1/2013 | Aggregate Cost | Smoothed market | N/A | N/A | 7.85% | 3.00% | 3.50% |
| 2013 | 1/1/2012 | Aggregate Cost | 5-yr assumed yield | N/A | N/A | 7.85% | 3.00% | 3.50% |
| 2012 | 1/1/2011 | Aggregate Cost | 3-yr assumed yield | N/A | N/A | 7.85% | 3.00% | 3.50% |
| 2011 | 1/1/2010 | Aggregate Cost | 3-yr assumed yield | N/A | N/A | 8.00% | 3.00% | 3.50% |
| 2010 | 1/1/2009 | Aggregate Cost | 3-yr assumed yield | N/A | N/A | 8.00% | 3.00% | 3.50% |
| 2009 | 1/1/2008 | Aggregate Cost | 3-yr assumed yield | N/A | N/A | 8.00% | 3.00% | 3.50% |
| 2008 | 1/1/2007 | Aggregate Cost | 3-yr assumed yield | N/A | N/A | 8.00% | 3.00% | 3.50% |

The mortality table used for fiscal years 2017 and 2016 was the RP-2000 male and female distinct rates projected to 2016 and 2015. The mortality table used for fiscal years 2008 through 2015 was the 1983 Group Annuity Mortality Tables, males set back two years and females unadjusted.
